8000 GERMANS ARE SLAIN AT LIEGE

BONNIE BURR IN COLLEGE CITY

She Visits Hink's Store;
Praises Bon Marche
Cleaners

Unless Caught, She Will
Divulge Identity
at Theater

(By BONNIE BURR.)

Scores of vigilant searchers as well as hundreds of merely curious persons attended my appointments yesterday. I triumphed freely with the great throngs with all odds against me and won again. Those searchers will apprehend me to-day. Whether they do or not, in accordance with my promise, I will appear at Ye Liberty Theater on Friday and Saturday nights, undisguised.

If I am free, this will be the greatest day I can render participants in the search. It will be unnecessary to admonish searchers to take a good look at me. I will give searchers a few hints which should lead to my speedy apprehension.

Between 2 and 5 this afternoon I will visit J. F. Hink & Son, Inc., Berkeley's most prominent drygoods store. An extra prize of \$100 in gold will be awarded by the management to anyone apprehending me there, providing the person has in his or her possession the sales check of a purchase made in the store today.

Please use your best efforts to detect me.

I will not recognize the salutation given by persons blocking the entrance.

SARTORIAL FACTS.

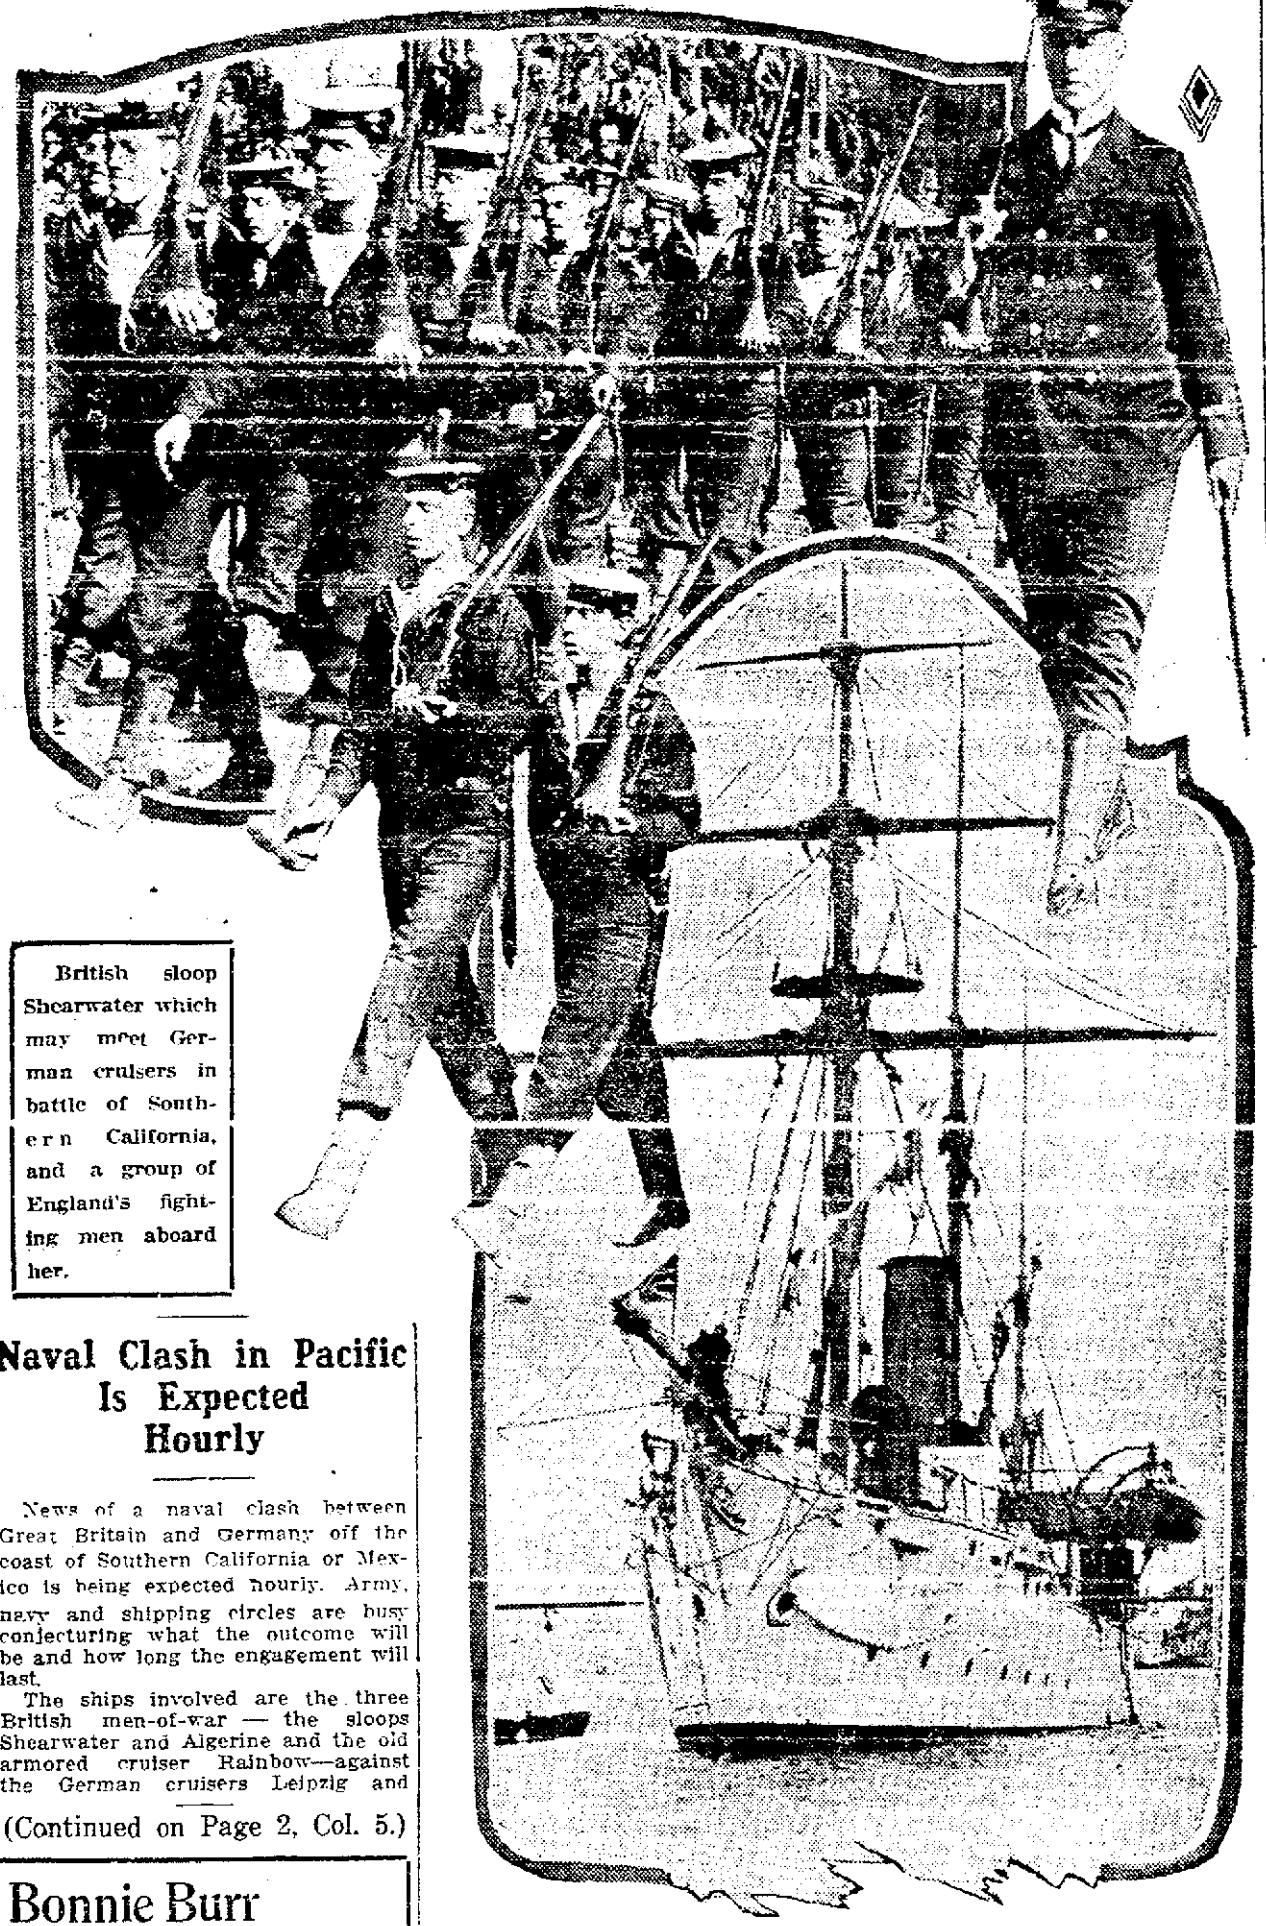

To be well and fashionably dressed is the ambition and desire of every normal man or woman.

Any plan that will aid in helping the allowance to do double duty commands itself as a boon to those in the class of moderate circumstances.

Economy in dress is one of the greatest problems that confronts the person of small or moderate means. To buy good things of wearing quality in preference to delicate flimsy things is something people seem to have difficulty in persuading themselves to do. To take good care of the wardrobe is the next essential step in dress economy. Neat and tasty dress, appropriate to the means, is a higher testimonial to personal character than extravagant clothing. It is but a step from waste to economy if you pause to

MEN O' WAR MAY GRAPPLE THEY CRUISE SAME WATERS

Naval Clash in Pacific
Is Expected
Hourly

News of a naval clash between Great Britain and Germany off the coast of Southern California or Mexico is being expected hourly. Army, navy and shipping circles are busy conjecturing what the outcome will be and how long the engagement will last.

The ships involved are the three British men-of-war—the sloops Shearwater and Algerine and the old armored cruiser Rainbow—against the German cruisers Leipzig and

(Continued on Page 2, Col. 5.)

When And Where Bonnie Burr Appears Today And Tomorrow

It is now freely predicted by both sides, THE TRIBUNE for the people, and MISS BONNIE BURR for herself, that there is only one way left for the public to put a stop to MISS BURR'S ramblings. That is for all searchers to go to YE LIBERTY PLAYHOUSE TOMORROW AND SATURDAY NIGHTS and there study the elusive one to their hearts' content. MISS BURR will positively appear on the "STAGE" UNMASKED, whether she is apprehended before tomorrow night or not. She will appear in a beautiful summer creation and will demonstrate how easily she has outwitted the whole city of Oakland.

On account of the intense interest in the BONNIE BURR feature, and particularly TOMORROW NIGHT'S event, it is needless to say thousands will be turned away. However with the same program to be followed out SATURDAY NIGHT AT YE LIBERTY PLAYHOUSE together with the announcement from Manager Jackson of YE LIBERTY PLAYHOUSE that all seats may be reserved anywhere in the house at both performances, will help to facilitate matters, so that every person may have the pleasure of being comfortably seated to hear the charming and vivacious young visitor.

Announcement comes from Manager Jackson of YE LIBERTY PLAYHOUSE that it will be well for those who desire to see MISS BONNIE BURR to make their reservations TODAY if possible, as the seats for both performances of THE FOX are selling so fast that from present indications hundreds will be turned away.

THIS AFTERNOON between 2 and 5 MISS BURR will visit J. F. HINK & SON, INC., BERKELEY'S most prominent DRY GOODS STORE, where she will try conclusions with both BERKELEY and OAKLAND searchers and if apprehended in the store the captor stands to win \$300.00 if the person has in his or her possession a sales check of a purchase made any time today. Should MISS BONNIE BURR escape detection today look for her TOMORROW NOON on the corner of

the elusive one evade capture tomorrow noon the reward offered for her capture by THE TRIBUNE will be withdrawn after 1 o'clock tomorrow afternoon in order to allow the elusive maid to make her appearance TOMORROW NIGHT on the stage of YE LIBERTY PLAYHOUSE, but will go into effect again SATURDAY after the FIRST EDITION OF THE TRIBUNE makes its appearance on the streets on that day, under the same rules and conditions as have heretofore governed this chase, and will remain in effect until someone apprehends her with the proper salutation and complies with the rules and conditions which are printed elsewhere in this paper.

BRITISH BATTLESHIPS DESTROY TWO GERMAN CRUISERS, IS REPORT

By Associated Press.

NEW YORK, Aug. 6.—Captain Hessig of the Uranium line steamer Uranium, announced at the British Consulate today that he had intercepted yesterday wireless messages from the Steamer Lusitania saying that two German cruisers which had been pursuing the Lusitania had been chased and sunk by two British warships. The Uranium reached port yesterday.

Uranium line officials, who saw Captain Hessig after his arrival here, said today that the captain had not reported intercepting such a message and that they were unable to confirm it. The wireless station at Sayville, to which the alleged message from the Lusitania was addressed, according to Captain Hessig, said today that it had not received such a message.

The message, Captain Hessig said, contained the additional

(Cont'd on Page 5, Cols. 3-4)

WAR DEVELOPMENTS IN BRIEF

Sveaborg, "Gibraltar of the Baltic," today was bombarded by the German fleet.

British destroyers have been in action in the North sea and German and British wounded sailors have reached Harwich.

British reports of yesterday's battle between German and Belgian troops at Liege give the German casualties as 8000 and those of the Belgians as relatively small.

Food supplies in Paris continued plentiful, with prices only slightly above normal.

The Bank of England reduced its discount rate from 10 to 6 per cent.

British regiments at Tien Tsin, China, today were ordered south.

Only a slight skirmish with few casualties was reported from the Franco-German frontier until noon today.

German officers arrested today in Ostend as spies are to be shot by the Belgians.

London reports the capture of a German cruiser by the French.

Some announces the arrival in Sicily of the Goeben and Breslau, two German cruisers formerly reported captured in the Mediterranean.

The American embassy assumed charge of German interests in the British isles.

GERMAN CRUISER SUNK BY BRITISH OFF CANARY ISLES

By Associated Press.

LONDON, Aug. 6.—The Chronicle's correspondent at Harwich telegraphs that it is believed an action is progressing in the North sea. A wireless message received by the British destroyer Virago orders her to prepare to receive 200 prisoners and wounded who are being brought in by a torpedo boat.

The third torpedo boat flotilla, which left the harbor yesterday morning, went into action immediately, and returned last night but little damaged. The batteries of the British flagship Amphion were slightly damaged.

Twenty-two German and six English wounded have been brought ashore and removed to the naval establishment at Shotley.

"GIBRALTAR OF THE BALTIC" IS BOMBARDED

LONDON, Aug. 6.—The Daily Mail publishes a dispatch from Copenhagen stating that a German squadron is bombarding Sveaborg, Finland, "the Gibraltar of the Baltic."

PRESIDENT'S WIFE IS DEAD

WASHINGTON, Aug. 6.—Mrs Woodrow Wilson, wife of the President of the United States, died at the White House today at 5 p.m. of a complication of diseases.

The President was completely prostrated when his wife died and broke down entirely. When Secretary Tumulty entered the executive offices to tell the waiting newspapermen his cheeks were bathed in tears.

The end came after two serious sinking spells. The President and her three daughters and Francis B. Sayre were at the bedside at the end.

Members of the family have been constantly at her bedside. The President was not absolutely demanded elsewhere by the European crisis and the resulting situation in the United States. cancelled all engagements today and remained with in call of the sick room.

Months of constant illness, which

BRITISH SQUADRON SINKS GERMAN CRUISER.

MADRID, Aug. 6.—12:02 p.m.—A dispatch from the Canary Island says a British squadron has sunk one German cruiser, the name of which is not given, and has captured another, which is being convoyed to Gibraltar.

8000 GERMAN TROOPS SLAUGHTERED AT LIEGE.

BRUSSELS, via London, Aug. 6.—The Gazette publishes today what it says are the facts, so far as known, regarding the repulses of the German forces by the Belgians in the Liege district yesterday. The German losses are estimated at 8000 men, while the Belgians suffered far less. The alleged route of the German Seventh Army Corps is not confirmed in its entirety, however, says the Gazette, which adds:

"The Belgian Eleventh Brigade, after successfully resisting the German attack, pursued the Prussians with such energy that the general commanding the Belgians was obliged to order our troops to turn back, as they were getting outside the range of the guns of our fort. The enthusiasm of our troops was magnificent.

WOUNDED FLEE TO DUTCH TERRITORY.

"A number of wounded Germans fled to Dutch territory and this gave rise to the belief that the enemy had been completely routed. They suffered, however, losses which are estimated at 8000. Our losses were relatively small.

At 4 o'clock in the morning the German Tenth Army Corps attacked the Chaudfontaine and Bouclettes forts from the south-east, while their artillery bombarded the fort at Flement, on the opposite bank of the River Meuse, five miles southwest of Liege. The Belgians captured seven guns and several prisoners.

"Proposals for the surrender of Liege have been again firmly refused."

"Stories of the great struggle between the Belgian troops and the German soldiers yesterday in the vicinity of Liege tell of terrible slaughter among the German forces.

25,000 BELGIANS, 10,000 GERMANS.

General Linaer, in an official report of his operations in the Liege district, states that in Wednesday's battle 25,000 Belgians were engaged against 40,000 Germans. The success of the Belgians

(Continued on Page 2 Columns 1-2)

CROWN PRINCE HURLS ARMY AT BELGIUM

KAISER'S TROOPS LOSE 8000 MEN IN BATTLE AT FORTS OF LIEGE

(Continued From Page 1)

was complete. Every attack of the Germans along their extended front was repulsed, the German Seventh army corps retreating into Dutch territory.

The Belgians collected 600 wounded in German lines. It is believed that the German Tenth army corps will attack tonight.

KING ALBERT IS IN COMMAND.

King Albert has assumed command of the troops, and has issued a decree that "the perfidy of a haughty neighbor demands that Belgium shall defend her honor and independence."

He bids the Belgian soldiers remember the army's glorious deeds of the past, and show themselves worthy of the trust placed in them.

It is reported here that the German colony at Antwerp is being expelled. However, as the colony comprises 25,000 persons, the report is not taken very seriously.

Two disguised German officers arrested today at Ostend had in their possession extensive military notes and plans of great value. They are to be shot.

FEELING RUNS HIGH.

Anti-German feeling throughout Belgium has become intense and many German residents were arrested today and charged with espionage.

Every German discovered anywhere in the city is brought before the police, who have considerable trouble in protecting the prisoners from attack by excited crowds.

Patriotic enthusiasm here is extraordinary. Nearly all the people wore badges with the colors of Belgium, France and England combined.

Thousands of women of all classes have been enrolled as Red Cross nurses and are awaiting the arrival of the wounded from the battlefields around Liege. King Albert has handed over his palace to the Red Cross Society, and the Queen will act as a nurse.

Many hotels also have been transformed into Red Cross stations and the citizens of Brussels have given up their carriages and automobiles for the transportation of the wounded.

Public subscriptions have been opened for the relief of the families of those who have fallen in the fighting.

Belgian boy scouts, while patrolling yesterday, captured a German cavalryman and arrested two German engineers believed to be spies.

BELGIANS SLAUGHTER ENEMY.

At about noon yesterday the German infantry attempted to carry by assault Fort Barchon, to the northeast of Liege. The attacking infantry crept up under cover of a heavy artillery fire, but the Belgian defenders reserved their fire until the Germans had come to close quarters, when at a given signal the Belgians opened fire with a perfect hail of bullets from rifles and machine guns, which worked havoc among the Germans. The attackers soon lay in heaps of dead and wounded around the fort.

At the same time Fort Chaudfontaine, to the southeast of Liege, kept up a hot fire on another body of Germans who had seized a neighboring castle. The Belgian artillery reduced the building to a mass of smoking ruins. The Germans finally retired all along the line.

A squadron of Belgian lancers was completely wiped out after it had killed 150 German Uhlans. A force of 20,000 Germans passed through Manhay, Luxembourg, on Wednesday in the direction of Aywaille, Belgium.

ATTACK IN OPEN FIELDS.

The attack on Liege yesterday was executed by one German army corps, while the Belgian force consisted in a mixed brigade reported by the artillery of the forts.

The battle was fought along a wide front and partially in the open fields. The Belgian troops carried out several furious counter attacks, throwing the Germans back and pursuing them up to their original positions.

Not an inch of ground was gained by the Germans during the fighting, and they suffered severe losses in dead and wounded.

A night attack on the Belgian positions was awaited with great assurance by the Belgian troops, who had been strongly reinforced. German troops were supposed to be on the way to reinforce the regiments which suffered so severely in yesterday's attack.

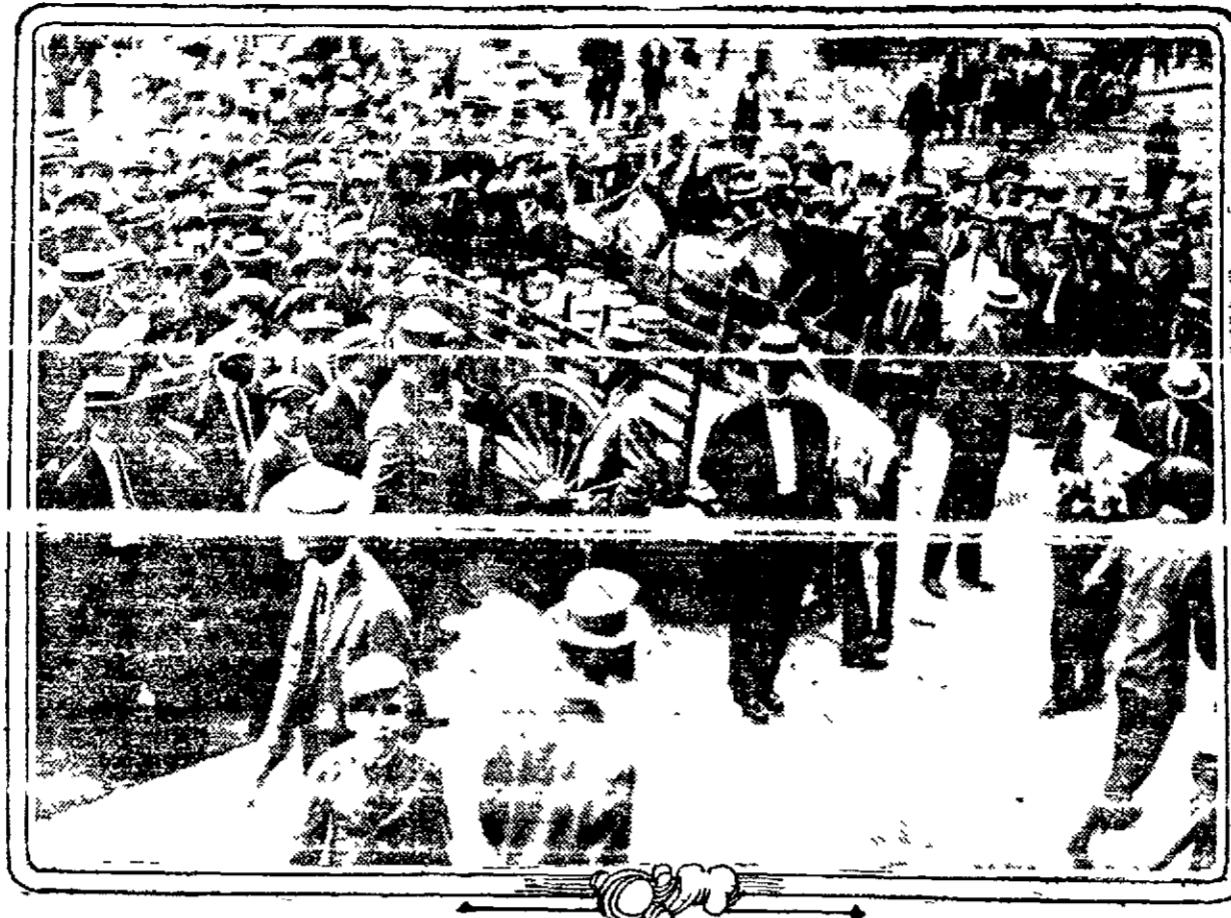

It was thought here today that the Germans would have to begin a regular siege of Liege, and it was pointed out that their howitzers were too small to be efficacious before the heavy artillery of the Belgium forts.

Military authorities were of the opinion that if the Belgians could hold out at Liege one of the sanguine battles of the war might be fought there.

3500 KILLED AND WOUNDED AT VISE.

LONDON, Aug. 6.—A dispatch to the Chronicle from Amsterdam says it is reported that 3500 Germans were killed or wounded in the fighting at Vise, Belgium. The postmaster of the town was shot because he refused to send telegrams for the Germans. the

LOADING A TRUCK WITH GOLD FOR SHIPMENT ON THE LINER OCEANIC, ALMOST \$10,000,000 WAS TAKEN OUT OF NEW YORK ON THIS ONE SHIP WHEN WAR BROKE OUT. THE COIN WAS PACKED IN BARRELS AND CAREFULLY GUARDED BY ARMED MEN.

correspondent says. The German Crown Prince, with 30,000 fresh troops, is hourly expected before Liege.

AEROPLANE IS BROUGHT DOWN.

The Daily Mail's correspondent at Brussels reports that a German aeroplane, flying at a height of 1500 feet, was brought down by a shot which also wounded the pilot. A Zeppelin airship, manned by Germans, was struck by the fire from a Belgian fort and fell near Havre.

Hundreds of automobiles left Brussels during the night to pick up the wounded. The first prisoner of war brought in was a German captain named Fortner, who was wounded.

A dispatch to the Times from St. Petersburg says that ten German steamers with coal and timber were seized at Archangel.

WOUNDED TAKEN TO BRUSSELS.

A dispatch to the Standard from Brussels says that between 500 and 600 wounded Germans are being brought to the Belgian capital. Havre, Pappinster and Remouchamps are occupied by Germans, but a large Belgian force is advancing against them.

A message to the Standard from Namur, Belgium, reports that twenty or thirty persons were killed during the German bombardment of that place.

The Standard's correspondent at Liege sends a story of a duel between a Belgian aviator named Fornau and a German aviator. The two exchanged revolver shots while maneuvering for the top position. Finally both planed to the ground.

GREAT ARMS PLANTS IN DANGER.

The loss of Liege, reported attacked by the Germans, would result in the abandonment of the great Cockerill works, which are to Belgium what the Krupp works are to Germany. The Cockerill plant employs 10,000 men. In addition to Cockerill's there are located at Liege all the important small arms plants of Belgium. Liege is the principal manufacturing point in Belgium for locomotives and railway materials of all sorts.

The city is located on the principal railroad line connecting Paris with Berlin. The Nord express and all the fast Paris-Berlin trains pass through the town.

WASHINGTON DISPATCHES CONFIRM DEFEAT.

WASHINGTON, Aug. 6.—American diplomatic dispatches from Belgium confirm the Brussels report of a heavy German defeat at Liege. The Germans were caught between two fires. The annihilation of some Belgian troops in a furious charge on overwhelming German forces also was reported.

PLUCKY UHLANS ARE ANNIHILATED.

LIEGE, Via London, Aug. 6.—A force of German Uhlans made a brilliantly courageous but fatal attempt to capture the Belgian general staff here during last night. Belgian troops swooped down on them and annihilated all.

GERMAN REPORT MAY ALTER SITUATION.

LONDON, Aug. 6.—German news as to the happenings of the last day or two in the conflict in which the armies of nearly the whole of Europe are engaged, is still lacking, and it is pointed out here when it reaches the world it may alter the perspective of the war picture painted by Belgian and French artists. Not a word has reached London from Berlin, while the isolated and delayed messages from Vienna throw no light on the military situation.

From St. Petersburg word has come that the mobilization of the Russian forces is progressing more quickly than had been expected and the activity of the Russian troops on the German frontier seems to confirm this.

Italy remains in an expectant attitude and from hints dropped at the Italian Embassy in London, appears quite ready to maintain her declared neutrality and even to assume active hostility if necessary in face of any number of German ultimatums, of which the Italian Embassy says it has no official confirmation.

Numbers of German vessels were snatched up again today in British ports.

CHINA IS NEUTRAL.

PEKING, Aug. 6.—China today declared her neutrality in the European conflict. The work of fortifying the German possession of Tsing-Tau continued today, and the authorities there added to their accumulation of provisions.

Foreign enterprises in China being paralyzed many Chinese have been affected already, and are withdrawing their money from the banks controlled by financiers representing Russia, France, England, Germany and Japan, which hitherto had commanded every confidence.

Experiencing great difficulties owing to the closing of the trans-Siberian road, the restriction of the government service for which many of them held tickets while some of the banks refuse to recognize certain European letters of credit.

LONDON, Aug. 6, 4:20 p.m.—The British admiralty announced that the British steamers Iceland and Elder from Bremerhaven report that the row,

North German Lloyd liner Kaiser Wilhelm der Grosse has been maintained and converted into an armed cruiser with guns and searchlights.

LONDON, Aug. 6, 4 p.m.—Premier Asquith today asked the House of Commons to vote a credit of \$50,000,000 and informed the members that Field Marshal Earl Kitchener wanted the power to increase the British army to 500,000. On the war minister's behalf the premier asked the House of Commons to consent to this.

NEW YORK, Aug. 6.—In response to a call for reservists here to prepare to return immediately and enter the army, Belgians today began enlisting with Pierre Mati, the consul of Belgium in New York. Consul Mati said he expected to be able to send a large number of reservists to Antwerp aboard the "Vanderland," which is under orders to sail tomorrow.

WASHINGTON, Aug. 6.—No word had been received today from any of the European capitals as to whether the tender of good offices by President Wilson had been received.

NEWS OF GREAT BATTLE IN NORTH SEA ANXIOUSLY AWAITED BY THE BRITISH

By Associated Press.

LONDON, Aug. 6.—England waited today with anxiety for reports of the movements of the British fleet, of which virtually nothing had been heard since its departure some days ago under sealed orders. All eyes were turned toward the North Sea, whether it was generally assumed the war vessels had gone to encounter the German battleship squadrons.

Reports of firing and the arrival of a number of wounded German and British bluejackets at Harwich on the east coast at least there had been contact between vessels of the opposing navies. The morning passed off, however, without any more definite signs of an important clash between the powers' squadrons.

CHECK IS SEVERE ONE.

Messages from Belgium appeared to indicate that the check of the Germans outside Liege yesterday had been a severe one, some reports giving the number of casualties as high as 8000.

From Rome came a report that the German cruisers Goeben and Breslau had escaped the pursuit of French and British warships after bombing the Algerian coast and had safely reached a Sicilian port.

German war vessels are said to have penetrated the Gulf of Finland and bombarded Seaborg, the "Northern Gibraltar."

No definite confirmation of the reported ultimatum from Germany to Italy came to hand here.

As soon as Prince Lichnowsky, the German Ambassador, left today the American Embassy assumed full care of German interests in the British Isles. Irwin B. Laughlin, the American secretary of embassy, devoted himself to this business.

100,000 GERMANS IN ENGLAND.

It was estimated by the Embassy that there were 100,000 Germans in Great Britain, but there were no means of ascertaining how many of these had left since the beginning of serious trouble between the nations.

Many Germans reside in England in order to escape military service, but a great number of these are said to have applied to be permitted to serve in the German army as soon as Emperor William offered pardon for deserters.

So far the British government had not issued any order for the expulsion of Germans, and none is expected, so that those now here are likely to remain.

British families, however, are discharging all German servants, governesses and chauffeurs, so that the German benevolent societies have their hands full in supplying the needs of the destitute.

There was a rush of Germans of all classes to the home office today to secure British naturalization papers.

About half of the six American delegates to the Church Peace Conference, which was to have been held at Constance, have reached London. The other half were left behind.

Consul General Skinner is overwhelmed with personal letters and dispatches inquiring for Americans whose whereabouts are unknown. He says it is impossible for him to try to locate people or to answer letters and telegrams.

Many Americans today asked for help to obtain food and lodgings. There were many instances of persons with gold certificates in their pockets walking the streets all night long. Some of these were relieved by small unsecured loans from the Bank of California, who spent most of the day working to obtain reasonable rates of exchange.

The rate is now exorbitant.

Thus far no cases of insult or ill-treatment of Germans by the English have been recorded.

DESTITUTION KEPT SECRET.

The cruiser Nurnberg, after spending several days in San Francisco bay last month, sailed on July 20 ostensibly to join the German Asiatic Fleet, but on July 22, it was reported yesterday, but not officially, to have been sent to the Mexican coast to render assistance to British merchant vessels bound to Seattle and ports in British Columbia.

This conjecture is by no means certain, however, and some are inclined to believe that the Rainbow is headed for the Mexican coast to render aid to the British gunboats in case the latter are attacked by those of the Kaiser.

The Rainbow left the Esquimalt training station and passed out of the strait of Fuca at an early hour yesterday morning, steaming southward past Cape Flattery. It was reported yesterday, but not officially, that the Rainbow's orders were to cruise about off Cape Flattery as a reassurance to British merchant vessels bound to Seattle and ports in British Columbia.

Both the Shearwater and Algerine are old ships and local naval experts predicted that in the event of a meeting between these boats and the German cruisers the battle would be short. The Rainbow also is an old ship and could do little against the German gunboats.

DESTITUTION TRANSFER OF SHIPS.

NEW YORK, Aug. 6.—Julius Krueger, chairman of the Southern Pacific Company, issued a statement today saying there was no truth in the report that negotiations were in progress between the United States government and the Pacific Mail Steamship Company for the transfer of the steamships Manchuria, Mongolia, Korea, Siberia and China of the Pacific Mail fleet to trans-Atlantic service, to be operated under government protection to take care of cotton and other exports to Europe and to bring back Americans now stranded there.

WARS STATESMAN VOLUNTEERS.

PARIS, Aug. 6.—Alexander Millerand, former French minister of war, volunteered today to serve as a general, the rank he formerly held in the French army.

Since the beginning of the German war no news has been received from Mrs. William F. Overstreet and her daughter of Berkeley, who are present in Paris. Much anxiety is expressed over their safety. They have many friends in the bar circles who are eagerly awaiting to learn of their whereabouts.

TO TOKIO.

TOKIO, Aug. 6.—The government denies a report that Germans had seized the merchantmen Yellow and Sea.

MIDDLESBOROUGH, Eng., Aug. 6.

Two German steamers have been seized in the North sea.

LONDON, Aug. 6.—The French embassy learned that the French fleet has captured a German cruiser.

MALTA (a London), Aug. 6.

British torpedo boat destroyers have captured and brought here a German Levant liner.

10,000 JAPANESE TO ATTACK TSING-TAU

ATTACK ON STRONGHOLD OF GERMANY THREATENED

By Associated Press.

SHANGHAI, Aug. 6.—An official at the Japanese consulate said today that upon receipt of the first official news of the beginning of the clash of arms between England and Germany, Japan would send a fleet with 10,000 men to attack Tsing-Tau and 10,000 more to relieve the British garrisons at Tien-Tsin and Peking. Preparations for such action were now under way, he said.

BOMBARDMENT OF BELGRADE RESUMED.

BELGRADE, via London, Aug. 6.—The Austrians renewed the bombardment of this city today. They shelled the royal palace, the national theater, the British legation and many private houses. The Servians did not reply to the fire. Three persons were killed and many injured.

PENETRATE GERMAN TERRITORY.

WARSAW, Russian Poland, via London, Aug. 6.—Russian frontier patrols, driving the enemy's cavalry before them, have crossed the East Prussian frontier at Lyk and Biala and penetrated ten miles into German territory. The Russians captured and burned the German railway stations at Borjemin and Biala and cut communication from Lyk to Johannesburg, the enemy falling back all along the front, burning villages.

BRITISH MOVE TROOPS IN CHINA.

SHANGHAI, Aug. 6.—Two British regiments, the Gloucester shires and the South Wales Borderers stationed at Tien-Tsin have been ordered south. They await arrival of the transports. An Indian regiment of Punjabis will remain at Tien-Tsin.

UPRISING IN CHINA IS FEARED.

TOKIO, Aug. 6.—Reports that revolutionaries in China are showing signs of activity focus attention here. It is feared that the European war will inspire an outbreak in China.

GERMAN CRUISERS ARE SAFE.

ROME, via London, Aug. 5, 1:37 A. M.—The Tribune publishes a report today that the German cruisers Goeben and Breslau, which were reported captured by the French, have arrived at San Salvatore, near Messina, Sicily.

One of the German officers in an interview said that while the Breslau was shelling the French naval station at Bona Algeria, sinking ships in the harbor and destroying the castle and some houses, the Goeben bombarded Philippeville further along the coast. He added that the two cruisers were subsequently pursued by a British squadron.

AMERICANS MAY BE IN DANGER.

NEW YORK, Aug. 6.—Grave fears were expressed here today for the safety of hundreds of Americans who, it is believed, were caught in the vicinity of the first battle yesterday in Belgium.

In the valley of the Meuse are the towns of Herve, Pepinster, Verviers, Vise and Argenteau, which are reported to have been attacked and in some instances sacked and burned by the German invaders.

They are gateways to famous Belgium resorts. Spa, where many Americans are known to be, lies only two miles south of Pepinster.

The railroad at Pepinster is reported to have been destroyed, shutting off any opportunity for escape of foreigners. Verviers, where reports say the Germans met their first repulse, is the woolen center of Belgium and is famed for its manufactory.

FRENCH SUCCESSFUL IN SKIRMISH.

PARIS, Aug. 6.—A light skirmish occurred between German and French troops today at Norroy-Le-Sec, in Meurthe-et-Moselle. The Germans suffered a few casualties but there was no loss on the French side.

REGIMENTS OF UHLANS DESTROYED.

PARIS, via London, Aug. 6.—The Matin today publishes a report that the Belgian army has destroyed two regiments of German Uhlans at Spa in the province of Liege.

GUARD ONTARIO GRAIN ELEVATORS.

FORT WILLIAM, Ont., Aug. 6.—Fearing that attempts may be made by German agents to hamper Canadian shipping by blowing up the big terminal elevators at the head of the Great Lakes, Colonel Laurie has ordered stationed at all grain storage houses members of the Ninety-sixth Canadian regiment. Colonel Laurie acted on instructions received from Ottawa.

ENGLAND REPLIES TO GERMAN "WHITE BOOK".

LONDON, Aug. 6.—A white book on the recent correspondence which preceded the opening of hostilities between England and Germany, issued today, contains a letter from the British ambassador at Berlin, Sir William Edward Goschen, saying that Germany had made a "strong bid for British neutrality" offering if Great Britain remained neutral to give assurances that Germany did not aim at territorial acquisition at the expense of France. Asked if the attitude applied to the French colonies, the German chancellor, Dr. von Bethmann-Hollweg, said that he was unable to give a similar understanding regarding the colonies.

EDWARD GRAY, the British secretary of state, replied to the ambassador's communication.

"It would be a disgrace for us to make this bargain with Germany at the expense of France—a disgrace from which the good name of this country would never recover."

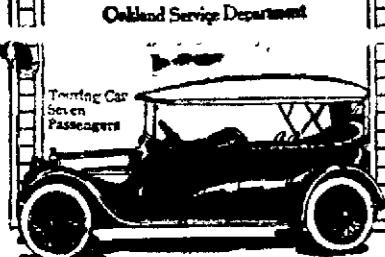

GERMANS UNABLE TO RETURN.

CHICAGO, Aug. 6.—The German and Austrian consulates here have virtually abandoned attempts to transport to Europe the 4000 reservists who have volunteered at the front.

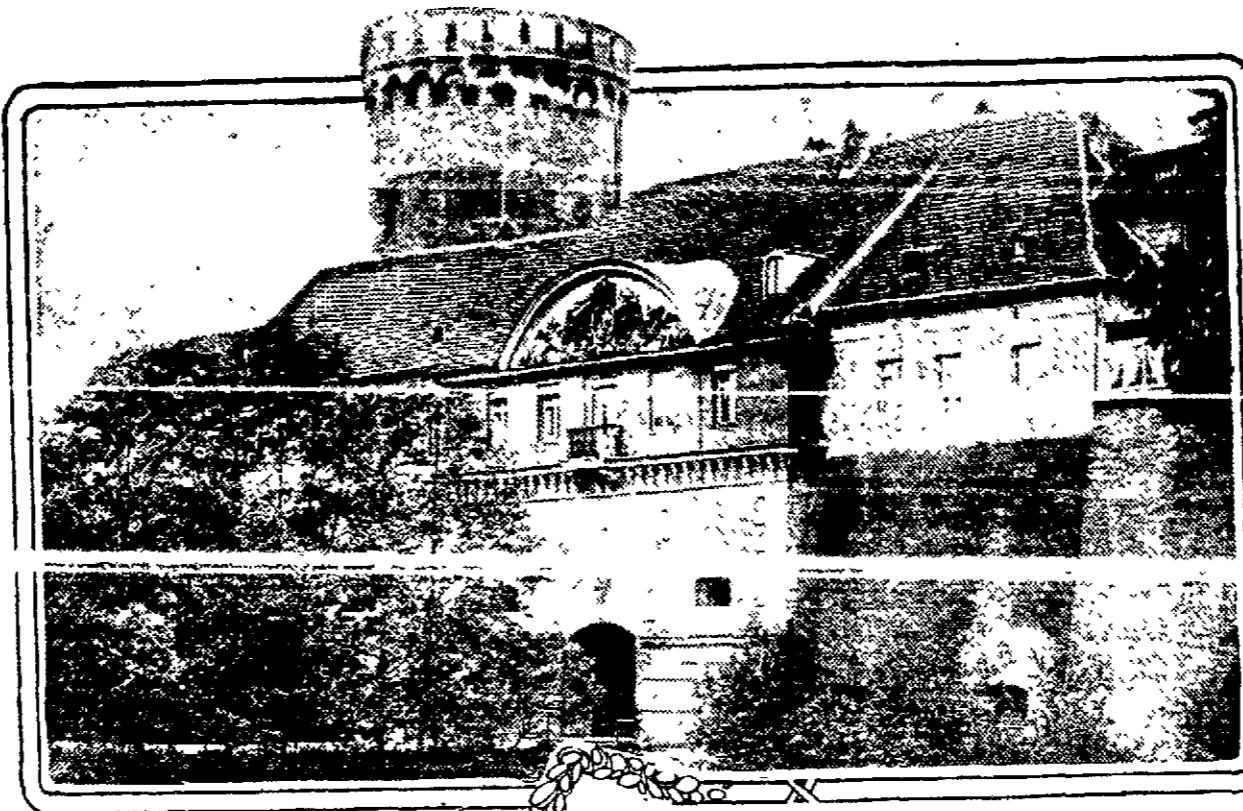

consulates to go back and fight in the European war. Baron Kurt von Rehewitz, the German consul, today made public a statement discouraging German reservists from making efforts to reach their native country. The Austrian consul said that it would be impossible while war was in progress for reservists to be sent from America to the fatherland.

GERMANY STORES \$30,000,000 IN TOWER

GERMANY'S \$30,000,000 STRONGHOLD, THE TREASURE TOWER AT SPANDAU.

One of the world's greatest war chests, a monster tower, at Spandau, Germany, is the repository of \$30,000,000 in gold, which the government insists must be kept inviolate for its original purpose—as a fund in case war should press Germany so hard that funds elsewhere would be unavailable.

The gold was obtained from France as indemnity after the

Franco-Prussian war, and was placed in the tower to be held in reserve for the especial purpose of financing troops should Germany ever again be called on to fight.

Recently a great corps of clerks under the watchful eyes of scores of troops counted every single coin of the vast fortune and found all intact. Not a single coin had been moved from the original place given it when the gold was stored away.

Many political leaders in Germany who are convinced that the days of war are over, or ought to be, argue that the immense sum could be utilized with great effect in some humanitarian cause.

They insist that the grim tower standing there, dedicated to warfare and wanton strife, is a bad example to set before the nation and the world in these enlightened times.

OAKLAND SHIPPING RECEIVES IMPETUS BY REASON OF WAR

With plans now being made to resurrect many of the old ships at present in the estuary a new angle on Oakland's possible shipping has come with the discovery by Oakland's shipping men that the war in Europe will probably double shipments to the Orient, South and Central American trade will also come to Oakland and San Francisco through the canal, and, according to business men, the European struggle will give the United States an opportunity to gain most of this business.

P. F. Valentine, professor of history at the San Jose State Normal school, outlined reasons for this at a dinner given by the San Francisco Advertising Men's Association yesterday, which was attended by a large number of local men. His views had already been voiced by Oakland shipping men, and the waterfront is busting with preparations.

A close watch is to be kept by the customs house on all foreign vessels touching Oakland, according to orders issued by Deputy Collector W. B. Hamilton, who has received instructions from Secretary of Treasury W. G. McAdoo. Arms, ammunition or other war supplies, will be in all cases confiscated on the ground that the United States as a neutral power cannot allow such shipments made.

SUBJECT TO INSPECTION.

The orders to the custom house officials are as follows:

WASHINGTON, Aug. 5—Collector of Customs, San Francisco. In pursuance of my telegram of this day, you are hereby instructed as follows: You will permit vessels to clear only after they have filed with you their full manifests, and you will at the same time notify the master of each vessel that all outgoing foreign vessels will be subject to inspection of their papers and cargo by United States authorities within the territorial waters of the United States. (Signed) W. G. McADOO.

Secretary of the Treasury.

That a search is being made by the government for available vessels for overseas travel was announced today when several officials consulted with local shipowners. Several big owners have expressed their willingness to aid the government, if possible. Fred Samuels, manager of the Oceanic Steamship Company, who has for years been a merchant marine sponsor, declares that if the United States will see in the present situation the opportunity that he believes is there, and see the value of subsidies, the American merchant marine can now be built up. The steamers Ventura and Sonoma are already under contract to the government.

ATTITUDE OF OTHERS.

The Pacific Mail is reticent regarding what part it will take in the situation. Among other companies that have been approached are: Associated Oil Company, American-Hawaiian Company, W. R. Grace & Co., San Francisco and Portland Steamship Company, Luckenbach Steamship Company, Pacific Navigation Company, North Pacific Steamship Company, Pacific Alaska Navigation Company, C. R. McCormick & Co., Robert Dollar Company, C. E. Dodge Company and Sudden & Christensen.

German women of Oakland are to journey across the bay tonight to attend the big meeting to be held in the German House for the purpose of raising funds to aid in the war being waged in Europe. The meeting is a follower of a tentative organization this week, when John Hermann, President of the German-American League of California, called together the sons and daughters of the Fatherland.

The sons of the Canadian Pacific have been taken over by the English government, according to news received in local railroad offices today. Whether they are to be impressed into naval service is not known.

While shipping men are preparing for more travel and different citizens from other countries are preparing to return to the war, messages from Europe are coming daily telling of the whereabouts of local people now on the other side of "the pond." In

one inconvenience will be, in case of many, that they will not be able to return home for some time should there be a scarcity of passenger ships, as is expected.

WHERE OAKLANDERS ARE.

Mrs. Mary E. Huntington and her daughter, Miss Marian Huntington, well known in local society, are re-

want no more than our national rights," he said, "but every Frenchman who is free to fight will rush to the assistance of his country. It is a matter of honor." Ten young Frenchmen from his staff of chefs have left the kitchen for the battlefield, so he knows what he is talking about.

AMERICAN WARSHIPS PROTECT NEUTRALITY

By Associated Press.

BREMERTON, Wash., Aug. 6.—Hurried preparations were being made aboard the cruiser Milwaukee at the Puget Sound navy yard early today to take the vessel to sea, and it was reported that she would sail for British Columbia waters before daybreak. Officers at the navy yard would give out no information concerning the Milwaukee's orders, but it is understood that the cruiser is being sent north to protect American interests and to enforce American neutrality in the waters adjacent to the boundary.

WASHINGTON, Aug. 6.—The battleship Florida has orders to remain at Puget Sound until it is determined whether her load of reservists or munitions of war, if any are aboard, violate the neutrality laws.

To protect the neutrality of American ports and prohibit shipments of munitions of war Secretary Daniels ordered today the battleship Florida to leave the port of New York, the Mayflower to proceed to Hampton Roads, a number of destroyers to guard ports along the New England coast and those at Lewes, Del., to prevent ships from leaving Philadelphia or in that territory.

Any vessel attempting to sail for a belligerent port without clearance papers will be boarded by American officials.

The Texas and Louisiana at Vera Cruz and the Minnesota at Tampa have been ordered to New York and Secretary Daniels announced that other American vessels would be ordered north.

President Wilson today directed that all officers of the army and navy, whether active or retired, refrain from discussing publicly either the military or political situation in Europe.

A letter sent by the President to Secretary Garrison and Daniels said: "It seems to me highly unwise and impudent that officers of the army and navy of the United States should make any public utterances to which any color of political or military criticisms can be given where other nations are involved."

NEW YORK, Aug. 6.—Although President Wilson has issued an order prohibiting wireless in the United States from transmitting messages of an unneutral nature, the Atlantic Communication Company's powerful tower at Sayville, L. I., sent several messages in code to a German warship lying off the coast.

KAI SER IS ATTACKED.

LONDON, Aug. 6.—A friend of the Earl of Crawford, who has just arrived from Berlin, told a correspondent here yesterday that the English Earl was attacked by the Kaiser and the Crown Prince near the German captain on Monday. The assailant, who was armed with a club, escaped. The Crown Prince was badly hurt. Soldiers who chased the man who attacked the Earl and nearly pulled all his clothes off in their eagerness to search him. Lord Crawford had difficulty in establishing his identity.

STRANDED CLERICS MEET.

ROME, Aug. 6.—A meeting of stranded American clerics was held here yesterday, presided over by Professor Nicholson of Wesleyan University. It was determined to cable to Washington for state assistance, the requests being signed by Bishop Hanna of San Francisco, Bishop Hennessy of Wichita, Kas., and Bishop Matz of Denver. Large parties of tourists from Boston, Chicago and Los Angeles have arrived here with their funds. Hotelkeepers of Florence, Italy, are being treated as a prisoner of war.

DISCOUNT RATE LOWERED.

LONDON, Aug. 6.—The Bank of England today reduced its discount to 6 per cent.

The reduction of the bank rate to-day is regarded here as an official intimation that the financial situation in the British Isles is now under control.

Business circles are making ready for the reopening of the banks tomorrow, when paper currency in small denominations is to be put into circulation.

The statement of the Bank of England is to be issued on Saturday instead of today.

GERMAN ENVOY QUILTS ENGLAND EMBASSY DEPARTS UNMOLESTED

LONDON, Aug. 6.—The German ambassador, Prince Charles Max Lichnowsky, with the Princess and his suite, left London today by special train for Harwich, en route to the continent. A large crowd was assembled at the railway station, but there was no demonstration.

The German ambassador and his wife stood on the steps of the embassy and saw off the embassy staff and a number of privileged guests

from the British consulate here from the captain of an incoming liner, who were sunk by British warships while escorting the Lusitania yesterday, but the report could not be confirmed.

VATERLAND GUARDED.

In New York harbor has the Hamburg-American liner Vaterland, apparently provisioning for service, but today the United States battleship Massachusetts, with a gun battery of 160 pieces, was anchored in the harbor and neither the Vaterland nor any other ship of a belligerent nation can pass her guns until the United States authorities have satisfied themselves that their departure will not violate the neutrality laws.

The Cedric of the White Star line has put into Halifax with passengers. It was reported, but not confirmed, that the Mauretania, while at sea, had sent a wireless message to the British cruiser Essex asserting that a German cruiser was following her and that the Mauretania asked assistance. The report was to the effect that the Essex came up immediately and stood by the Mauretania until she came into port.

VESSEL ESCAPES WARSHIP.

KEY WEST, Fla., Aug. 6.—The Standard Oil steamer Sun, flying the German flag, which left Tampico on July 30 with a cargo of oil for European ports, arrived here today, after having made a forced run of several hours to escape a British warship patrolling the Gulf of Mexico.

LINER RETURNS TO MONTREAL.

MONTREAL, Aug. 6.—The Allan Line Sicilian, which sailed from Montreal for London last Saturday morning, has abandoned the attempt and is returning to Quebec. Five liners sailed from Montreal the day before the Sicilian left. Nothing has been heard of them since. They are the Megantic to Liverpool, the Grampian and the Athenea to Glasgow, the Manchester Corporation to Manchester and the Lake Manitoba to Liverpool.

RED CROSS TO GIVE AID.

WASHINGTON, Aug. 6.—From The Hague has come the first acceptance of aid from the American Red Cross. A message has been returned saying hospital units will be dispatched as quickly as transportation can be found.

U. S. TO WATCH SHIPS.

WASHINGTON, Aug. 6.—Merchant ships flying flags out for war in this country will be held. The announcement was made today by Secretary Daniels, who said a careful watch would be kept on all ships of the warring nations in order to prevent violations of neutrality.

RECALL LAFAYETTE.

PARIS, via London, Aug. 6.—The appeal of American residents for the formation of an American legion suggests that such an organization should adopt "the martial costume worn by the bold brothers in arms of General Lafayette when in the sacred name of liberty they landed in the United States to place their swords at the disposal of our immortal Washington."

ENVY NEGLECTED.

PARIS, Aug. 6.—The French ambassador to Germany, Jules Cambon, according to official information, was not provided with any means of transportation for his return to France when he received his passport at Berlin. He was ordered to use his own resources and go to Denmark, where he remains. It was said at Berlin that the mobilization had monopolized the railways, but it is officially commented that the French government provided a special train to take the retiring German ambassador, Baron Von Schoen, from Paris to the frontier.

OFFICE TO AID AMERICANS.

CHICAGO, Aug. 6.—The United States sub-treasury here today opened a department for the receipt of money for the benefit of Americans stranded in Europe. Depositors were required to give the height, age, weight and other distinguishing characteristics of beneficiaries.

ARMY STOPS COMMUNICATION.

PARIS, via London, Aug. 6.—It is reported that the Belgian army has severed all communication between Belgium and Luxembourg.

HOP MARKET AFFECTED.

SACRAMENTO, Aug. 6.—Hop dealers are expected to deal in "futures" in Sacramento valley hops to a considerable extent this year owing to the European war. This conflict may result in the failure to harvest the English and German hop crops, in which event American dealers will buy and store hops in the hope of getting big prices later. If the war continues and no hops are grown for the next two or three years, local hop men predict prices will be the highest in history when the conflict is finally over, and it is on this expectation that dealers are counting on dealing heavily in "futures" this year.

COLUMBUS KNIGHTS TO CLOSE BIG CONVENTION.

ST. PAUL, Minn., Aug. 6.—The Knights of Columbus annual convention will close a three days' session tonight after selecting the meeting place for the 1915 convention, which is sought by Seattle, Wash., and Panama.

At last night's business meeting four members of the supreme board of directors whose terms had expired were re-elected.

A telegram expressing the sympathy of the convention in the illness of Mrs. Wilson was sent to President Wilson.

OFFER NO OPPOSITION TO HORSEMAN'S ESTATE.

Without any opposition having been offered, the \$60,000 estate of the late Joseph Josephson, well-known horseman of

general of the over-sea forces, will command the home army.

The Duke of Devonshire has offered his historic town house as offices for the Red Cross Society.

GERMANS DETAIN WRITER.

NEW YORK, Aug. 6.—Seymour B. Conger, correspondent of the Associated Press in Berlin, reported in special dispatches as being under arrest at the German-Russian frontier in Berlin. Conger had been ordered to St. Petersburg, but was detained at the frontier and with several other Americans sent back to the capital.

PEACE MEETING MOBBED.

SAFFRON-WALDEN, Eng., Aug. 6.—A hostile crowd last night broke up a peace meeting in the market place, stoned the window of the independent labor headquarters and hauled down the red flag and burned it.

MAYOR ROLPH URGES HELP FOR RED CROSS.

SAN FRANCISCO, Aug. 6.—Mayor James Rolph Jr. issued a proclamation this morning to the people of San Francisco urging them to contribute to the American Red Cross society, which made an appeal by wire to him this morning for funds.

The National Red Cross organization contemplates co-operating with European Red Cross societies, and also plans to send a steamer with doctors, nurses and medical supplies across the Atlantic. According to the treaty at Geneva, the ship sailing under the Red Cross flag can enter any harbor to aid the sufferers.

Mayor Rolph's proclamation asks that contributions be sent to Asian Knight, treasurer of the local Red Cross chapter, at 502 California street.

WOULD IGNORE FLAG.

NEW YORK, Aug. 6.—The Morning Post proposes that England resume her rights of capturing all cargo destined for hostile countries under whatever flag the vessel may be sailing.

It is estimated that when England declared war on Germany there were 2,000 German steamships and 3,000 German sailing ships on the high seas. Englishmen feel that a good reason for these ships was made the first day of war by England. In addition to the German steamer Belgia more than twenty German vessels were seized or captured outside British ports. These included three steamers off Gibraltar which had valuable cargoes.

According to the Telegraph General Sir Ian Hamilton, Inspector gen-

eral of the over-sea forces, will command the home army.

The Duke of Devonshire has offered his historic town house as offices for the Red Cross Society.

information that the Lusitania was continuing on its trip to England. The Lusitania sailed from New York with darkened lights shortly before 2 o'clock yesterday morning.

COAST PATROULED.

The presence close to the American coast of warships of the warning European nations prepared to descend on and capture the merchant vessels of their opposing belligerents was evidenced today by news of great Atlantic liners arriving at Halifax, Nova Scotia, and by wireless reports of the warships' activities.

The fast Cunard liner Mauretania, with 1,600 passengers, from Liverpool, and the White Star liner Cedric, from Queenstown, today ran into the Canadian port, presumably to escape pursuit by two German cruisers, believed to be hovering in the vicinity.

It is believed that each liner has

information that the Lusitania was continuing on its trip to England. The Lusitania sailed from New York with darkened lights shortly before 2 o'clock yesterday morning.

Call 15,000 Swiss in United States to Join Nation's Army

NEW YORK, Aug. 6.—The Swiss consulate in this city today issued a call to 15,000 Swiss in the United States to report here for embarkation to join the Swiss army, which is mobilizing to enforce her neutrality.

NEW YORK, Aug. 6.—The Swiss consulate in this city today issued a call to 15,000 Swiss in the United States to report here for embarkation to join the Swiss army, which is mobilizing to enforce her neutrality.

pool, has put into Halifax, presumably fearing capture. This announcement was received by the White Star line offices here.

MAURETANIA IN PORT.

HALIFAX, N. S., Aug. 6.—The Cunard liner Mauretania arrived here at 10:30 a.m. today, having been converted to the mouth of the harbor by the British cruiser Essex, which picked her up south of Saint John. The Mauretania carried 1,400 passengers, all of whom probably will be landed here.

PROPHESY GREAT FUTURE FOR CITY

Expert Community Builders
Address Commercial Club
Members.

Oakland has a golden future in the making of which the Commercial Club is a factor. The opinion expressed by expert community-builders from other large cities who spoke at a meeting of the club's membership committee this afternoon

The gathering was auspicious in that it inaugurated weekly luncheons of the Commercial Club and in the passing of articles of the club's incorporation. The incorporation articles were unanimously passed on the motion of B. A. Forsterer, so called by Fred Kahn.

Gordon C. Corbaley, secretary of the Spokane Chamber of Commerce, and Wesley E. King, former members of Salt Lake City and now resident in San Francisco, were the guests of the club

WEALTHY FARMER KILLED

SAN JOSE, Aug. 6.—Will Martin, a wealthy farmer of Blance, near Salinas, was killed yesterday morning about 12:30 o'clock in an automobile accident. He was accompanied by Dave and Charles McFadden, returning from a hunting trip. The machine plunged into an irrigating ditch at the P. V. C. rail-road crossing

A CITY is a large department store, and the way to bring people and business to your city is for the business men to take united action just as the different units in a big store. A commercial organization in a city like Oakland works in the same spirit, that is applicable to a great industrial enterprise. We have

gotten away from the idea that a commercial organization is a place where men gather round a table and talk and organize an advertising department. They've got to go out and work and get in closer touch with the people they want to attract to their city." Corbaley mentioned there were 2700 members in the Spokane Chamber of Commerce.

"We believe," said Corbaley, "the Pacific Coast is coming into its own, and our Commercial Club will share in the triumph."

"Educate the Easterner," advised Wesley E. King. "People east of the Mississippi are grossly ignorant of what the West is doing," King declared. "I find most of the questions asked are about the conditions in the West by Eastern men who ought to know. One of the objects of the Commercial Club should be to give people in the Eastern States a knowledge of what we are doing in the West and to disseminate the truth."

"City building can best be accomplished by combining forces in the community," said King, and where there are two commercial organizations, they ought to combine their interests and work together.

In remarking on the decision of the Commercial Club to hold weekly luncheons, Managing Director Joseph E. Calne, prophesied a great future for the club.

Stockton, Aug. 6.—With the heavy crop of wine grapes coming on and the present outlook financially poor for the growers, one ray of sunshine penetrates their gloom by the offer of E. E. Deaville to contract for wine grapes at \$12 per ton. He sold several thousand tons of grapes while in San Francisco and the bay cities last week and is now looking for more grapes.

Stockton, Aug. 6.—With the heavy crop of wine grapes coming on and the present outlook financially poor for the growers, one ray of sunshine penetrates their gloom by the offer of E. E. Deaville to contract for wine grapes at \$12 per ton. He sold several thousand tons of grapes while in San Francisco and the bay cities last week and is now looking for more grapes.

San Rafael, Aug. 6.—The Marin county grand jury, yesterday, returned a true bill against Edwin M. Dates for embezzlement. Dated was asked to say whether or not he had the \$25,000 which he was ordered to pay to his step-daughter, Miss Bessie Porter, about a month ago.

Stockton, Aug. 6.—Returning afoot from a dance just before daybreak this morning, a party of six from Happy Valley, on the creek, had to go through William Dielehorst's water-melon patch or else wade to get to a foot bridge over the stream.

Diestelhorst, lying in wait for water-melon thieves, shot to scare the crowd.

He shot too low and these were hit J. H. Bickford, four shot, his babe in arms, two shot. George Burchett, two shot. Ned Anderson, four shot, three hit. Mrs. Mattern, two shot. Mr. Holbrook was the only one who escaped.

A physician removed all the shot except one in Holbrook and one in Mrs. Mattern.

St. Helena, Aug. 6.—The work of preparing Turner Hall for the vintage allegory that is to be one of the big features of the St. Helena Vintage Festival is now complete. The special scenery has been painted and the lighting and decorations placed. The work of making the costumes which have been designed by George de Verne, author of the allegory, is progressive rapidly and rehearsals for the performance have begun.

RADICAL CHANGES IN CLAYTON BILL

FEDERAL BUREAU INQUIRY IS DONE

"Unfair Competition," Chief Feature of Measure, Causes Long Debate.

WASHINGTON, Aug. 6.—With the Newlands bill to create a federal trade commission out of the way, the Clayton bill, second of the trilogy of anti-trust measures, was before the Senate today as the unfinished business. The Newlands bill had passed the Senate by a large majority and was on its way today to final disposition in the House.

Radical changes were made in the bill as it passed the House and indications were today that it would disagree to the amendments and ask for a conference.

The chief feature of the bill that distinguished it from the House measure was the section making "unfair competition" unlawful, around which debate in the Senate principally revolved. Amendments defining or describing the terms "unfair competition" were defeated. Among the principal amendments adopted was that for a restricted court review of the commission's orders similar to the review afforded by the Interstate Commerce Commission's orders.

The Senate bill provides for a commission of five members to take over duties now performed by the commissioner of corporations, with enlarged authority. Its powers would be to investigate the business financial condition, conduct and management of a corporation doing an interstate business and to issue and enforce orders against "unfair competition" by corporations.

Administration leaders in the Senate were determined today to press for prompt action on the Clayton bill.

OAKLAND MOOSE PLAN REUNION AND PICNIC

Many features will mark the reunion and picnic which will be given by Oakland Lodge of Moose at Lafayette Park, Sunday, August 12. The committee in charge is already at work arranging for the event and prizes will be given to the members proving the best athletes.

Dancing will be one of the features of the afternoon and a number of original stunts have been promised by members of the order. The committee in charge of the event is composed of W. F. Gibson (chairman), S. H. Goldstein, H. Davidson, T. B. Nease and W. J. Gamble.

Many of the Oakland lodgesmen will go to San Francisco Wednesday evening, August 12, to participate in the big class initiation at the Moose auditorium. The delegation will be accompanied by the drill team and Past Dictator J. Treador taking the place of Past Dictator Al Moffit, now in the East.

SMALL THEFTS CROWD RECORDS OF POLICE

Small thieves and small burglars again occupied a prominent place on the police blotter this morning, several small bats in different parts of the city being reported. L. F. Gerhardt, 6512 Dana street, reported that small articles were stolen from a shed on his premises and John McFayish, 1160 Fifth street, reported minor thefts from his residence. Dr. A. Daniels, 1465 Seventh street,

Mr. F. Cunningham of the Sherman House, Eighth and Webster streets, declares that clothing was stolen from her room. Jacob Muller, 1446 Boulevard, reported a load of hay stolen from his stable. Mrs. L. F. McFayish, 1922 Harrison street, had to go to search for a purse containing \$20. stolen from her premises.

SAN FRANCISCO, Aug. 6.—With a telephone box tucked under his arm and a Jiminy-like piece of iron in his hand, Fred Cresswell, a molder, was caught leaving a store at 1685 Market street at 2 o'clock this morning. Policeman Munro and Special Officer Green, after ascertaining that the place had been broken into, knocked Cresswell for burglary.

G. O. P. TO WELCOME FREDERICKS

Republicans of Alameda County to Hear Candidate Speak

All arrangements for the meeting at the Macdonough Theater Saturday night at which Captain John D. Fredericks will speak, have been completed and it is certain that the candidate for the Republican nomination for governor will be given a rousing reception, not alone because this will be his first appearance in Alameda county during the campaign, but for the reason that he is one of the commanding figures in the race.

This meeting will be opened at 7 o'clock sharp and will close at 8:30 promptly in order that the Annette Kellerman pictures may be shown as per program, and those contemplating attending should bear this in mind and be on hand.

The county committee, members of the Young Republican League of Alameda county and numerous Republican clubs of the county are taking steps to day to extend to Captain Fredericks a hearty welcome on his arrival and a list of vice-president will be prepared im-

mediately after his arrival. Mr. Fredericks Campaign Committee, is very sanguine concerning the success of his candidate and predicts his nomination at the primary and election in November. Mr. Bacon says reports from all over the State are intensely gratifying and as the correspondents have been advised to send in unbiased statements he is certain of success.

That the Progressives fear Fredericks is manifested, according to Mr. Bacon, by

mod batteries in his direction and are trying to unload upon him certain discredited and reactionary leaders of the old organization who were connected with the Southern Pacific. In connection with this effort, Mr. Bacon says:

"This early effort of the so-called Progressives to load us with the relics of the old S. P. machine is in accord with their effort to prove that 187,000 Progressives have all the stewardship and righteousness in California while 285,000 Republicans are undesirable citizens."

Captain Fredericks spoke yesterday in Woodland where he addressed a large meeting and tonight will hold a big rally in Marysville.

While Francis V. Kessling continues his tour in the south with good results, according to reports received at his headquarters here in the Macdonough Building, his managers in this section of the State are keeping up their activities. Clubs are being organized in many places. Sacramento women having recently formed a compact organization to work in his behalf. The Oakland Kessling Club, organized by Mrs. Lucy Barker, is reported as gaining in membership and the Elmhurst Kessling Republican Club is said to have 250 names on the rolls.

Mr. Joseph R. Knowland addressed the members of the Klamath Women's Republican Club yesterday at a meeting held in Sequoia Hall in the afternoon, during which she complimented the women on the interest displayed in matters political. Mrs. Knowland said she had found that women are not swayed by sentiment but convinced by anything save the cold facts. That they are looking for candidates for office who have taken an active part in humanitarian legislation; who have stood for the bettering of conditions for women and children. Mrs. Knowland said she attributed the large measure of support being given Mr. Knowland by women to the fact that he had advocated legislation calculated to stamp out the white slave traffic, for uniform divorce laws; for the protection of the home and for the greater equality of men and women, socially and industrially. Following the meeting a reception was tendered Mr. Knowland. She departed last night for Bakersfield where she will join Mr. Knowland.

The Young Republican League of Alameda county has endorsed Congressman Knowland for the senate in the following resolutions:

Whereas, Hon. Joseph R. Knowland has by his conduct in the Lower House of Congress during his ten years of service demonstrated his especial fitness as a legislator, and

Whereas, Mr. Knowland has consistently stood for the legislation necessary to the protection of the interests of the manufacturers, the farmers and the working classes of this State and the United States as well as for those laws meaning genuine reform in other directions.

Resolved, That we, the members of the Young Republican League of Alameda county do hereby heartily endorse California's champion in Congress, Hon. Joseph R. Knowland, for the Republican nomination for United States Senator.

At this meeting the candidacy of J. E. Stockwell, of Los Angeles, for state controller was also endorsed.

The members of the Grand Army of the Republic will tender Congressman Knowland a reception at Lincoln Hall Wednesday, August 14, at 8 p. m.

At a meeting of the Colored Women's Republican Club of Alameda county held at the home of Mrs. H. C. Richardson

THIN PEOPLE PUT ON FLESH EASILY IN SUMMER

Thin men and women who like to increase their weight with 10 to 20 pounds of healthy "flesh" will find no better time to teach such result than in the summer months. Pounds gained in weight are often made by thin people in June, July and August. Thin folks stay thin because their assimilative organs do not absorb sufficient of the flesh-making elements of the food that is eaten. When a person is physically deficient it often difficult to gain weight in winter because a great portion of the little nourishment that is absorbed is used to keep the blood warm rather than to provide flesh and fat.

People who imagine they were built to stay thin should take advantage of Nature's laws. This season and make a determined effort to eat on a flesh and bacon diet. Use a good standard bacon barding like Sargol while the hot days are here. Here is a good test worth trying this summer. First weigh yourself and measure yourself. Then take Sargol one tablet with a glass of water for two weeks. Then weigh and measure again. If you gain weight, then you are doing what you have to do and think. The scales and the tape measure will tell their own story, and show any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

DYING WOMAN PLEADS FOR SANTOS

Begs to See Heir Accused of
Trying to Poison
Her.

With death threatening her, Mrs. Anna S. Rogers, an aged and wealthy widow of San Leandro, is pleading with her attorney, W. M. S. Fawcett, a young man whom she raised from childhood and who is in the county jail today charged with an alleged attempt to poison her by placing creosote in a bottle of medicine which she was taking under a physician's orders. Santos was formally arrested yesterday on a charge of wilfully mingling poison.

Injury of a person, a felony under section 347 of the Penal Code. The crime is punishable with imprisonment of from one to ten years upon conviction.

Mrs. Rogers, an aunt of Deputy District Attorney A. A. Rogers, has not been informed of the arrest of her protege, as it is feared that the shock of the alleged attempt made to hasten her death may result seriously with her on account of her feeble condition. She is suffering from paralysis.

Peace for Mexico City, temporarily, at least, seems a certainty. The Mexican War, consisting of 112 generals, decided upon the unconditional surrender of the city to the Constitutionalists.

It is expected that a general amnesty will be declared at an early date.

A proclamation by General Robles and General Dominguez, personal representatives of Carranza, was published in all the morning newspapers today, and created a good impression. The document guarantees the peaceful entry of the conquering army.

MANY DENIALS.

Deputy District Attorney W. B. Smith today drew up the complaint against Santos. It was sworn to by Detective George Helms of the district attorney's office. According to the investigation made by Deputy Smith and Detective Helms, Santos had purchased a quantity of poison at a San Leandro drug store. He told conflicting stories about the poison, denying that he had purchased any and when confronted with the evidence declaring that he did not remember signing for a poison.

The alleged attempt upon the life of Mrs. Rogers was discovered by her nurse when about to administer a dose of medicine prescribed by Dr. Colman of San Leandro. The nurse detected an unusual odor about the medicine and called in the physician, who at once declared that the bottle had been tampered with.

An investigation by members of the police resulted in Santos being taken into custody.

FEARS BLINDNESS, COMMITTS SUICIDE

Mother Discovers Son in Dying
Condition From Gun
Wound.

Fearing that he was to become blind, and having a pathetic note in which he declared that he would not live to be a burden to his relatives, Alister B. Hayward, a stenographer, 26 years of age, discharged two barrels of a shotgun into his own breast. Death was instantaneous. The act took place at the home of the man's parents, Mr. and Mrs. John E. Hayward, 1624 Lyon avenue, at noon today. Terrified by the shots, his mother rushed into the room to find him dead and horribly mangled on the floor, the smoking shotgun lying at his side. Screaming, she fell across the body of her son, and friends, hearing the noise, found her in a few moments later.

Hayward had, according to information in the coroner's office, been unable to work for several months on account of failing eyesight. As his malady grew worse, he became more morose and morbid according to his parents, often talking of the horrors of blindness. He often declared that he would rather face death than the "Big Dark."

The man had made minute and systematic preparations for his act of suicide. He had rigged up a string device, half-blind though he was, to pull both triggers at the same time. He attached the strings to a bedpost, propped himself up with pillows, placed the muzzle of the gun to his breast and pulled the trigger.

The two heavy loads from the No. 10 gauge gun tore a jagged wound through the man's body.

A note of farewell was found on the man's bureau. In it he bid his parents good-bye, informing them that he did not care to live dependent and a burden on them and craving forgiveness for his act.

The body was removed to the Fruitvale branch morgue and an inquest will be held.

HOW SHORTHAND IS BEST LEARNED

Ilson Shorthand Institute Has
Developed Unusual Teach-
ing Method.

The ease with which shorthand is learned depends on the manner in which it is taught. An exceptional learning method has been developed by the Frederick Ilson (Oakland) Shorthand Institute that goes so directly to the heart of the subject, it is easier to comprehend that it costs the interest and hearty enthusiasm of the student.

This interesting method of learning is taught in small private classes which in the day course are for young women exclusively. The learner has the encouraging help of instructors thoroughly interested in her progress. The cheery, refined surroundings, the splendid class of young women in attendance, render the study most attractive.

Only the Pitman and Gregg sys-

tems are the only systems used wide-

ly throughout the English-speaking world. This means that no matter what city a stenographer may move to, she writes a system of which her employer knows and which is a recommendation of her ability.

The school is located at 529 Twelfth street, elevator entrance Blake Block, 121 Washington street.

CARRANZA WILL ENTER CAPITAL

Constitutionalist Chiefs Agree
With Carbajal on Oc-
cupation.

BULLETIN.

WASHINGTON, Aug. 6.—Carbajal today waived all conditions except the request for an amnesty and guarantees to life and property.

WASHINGTON, Aug. 6.—Joseph Castellor, representative of Provisional President Carbajal of Mexico, after a conference with Secretary Bryan today, officially confirmed the statement that an agreement between General Carranza and the Carbajal delegates had been reached and expressed the opinion that the situation had now cleared and the peaceful occupation of Mexico City by the Constitutionalists was assured.

TO PROCLAIM PEACE.

ACAPULCO, Aug. 6.—A proclamation will be requested of General Carranza, the Constitutional leader. A peace proclamation probably will be published today.

President Carbajal yesterday received a message from General Obregon, dated Panjamo, state of Guanajuato, in which Obregon called upon Carbajal to resign, informing him that the Constitutional army was marching on the capital.

Peace for Mexico City, temporarily, at least, seems a certainty.

War, consisting of 112 generals, decided upon the unconditional surrender of the city to the Constitutionalists.

It is expected that a general amnesty will be declared at an early date.

A proclamation by General Robles and General Dominguez, personal representatives of Carranza, was published in all the morning newspapers today, and created a good impression. The document guarantees the peaceful entry of the conquering army.

VILLA MEETS ENVOYS.

EL PASO, Aug. 6.—The peace envoys from President Carbajal to General Villa passed through here yesterday on their way to Mexico City after having conferred with the northern Constitutional leader, according to reliable reports among officials of the Constitutionalists.

Their names were not disclosed.

It was asserted by Americans who arrived from Chihuahua City that Villa reached a satisfactory agreement with them.

A systematic and rigorous campaign of taxation will be inaugurated by Villa's officials in Chihuahua State.

A decree issued recently by Villa's military governor reached here today.

It stated that unless all industries in the State are reopened within one month, double taxes will be charged against the companies.

All industry concerns in the State were instructed that they must use only Constitutional currency purchased from Villa's treasury at the rate of 53 cents on the gold dollar. Villa's money is quoted in the border at 20 cents.

REBELS SEARCH SHIP.

VERA CRUZ, Aug. 6.—Constitutionalists last night boarded the Hamburg-American liner Antonina, which is being held at Tampico, and searched Dr. Neuva and Senor Posos, charged by the Mexican authorities with homicide. The fugitives were not found and are believed to have escaped in a motor launch when they learned of their danger.

The captain of the vessel was taken into custody on land before the search was made, as he had refused to surrender the men, believing the charge against them a pretext to execute them as political offenders.

The German vice consul, who was found on board, was held under arrest until the search was completed.

Rear Admiral Badger has been instructed to demand the immediate release of the Antonina.

SCARCITY OF STEAMERS
FOR MERCHANT MARINE

SAN FRANCISCO, Aug. 6.—Collector of the Port Davis, following a consultation of steamship owners here, announced today that only eight vessels were available for service in the merchant marine at the present time. There is a possibility of more steamers being offered, as the message sent from Washington was of such an indefinite nature that many owners were unwilling to commit themselves.

The larger steamship companies, including the Pacific Mail Steamship Company, and the Pacific Coast Steamship Company, and the Luckenbach Company, have their head offices in New York, although operating all vessels here. None of their local officials were willing to express an opinion as to the disposition of their ships. Among the vessels available are two belonging to the Associated Oil Company, the steamer Camino de la E. K. Wood Lumber Company and the schooners Edward H. Vance, George H. Sunwick, General Hubbard and two others.

LOS ANGELES, Aug. 6.—Mike Kraft, alleged to be the "most-wanted man in New York City," with an international reputation, was arrested by Deputy Sheriff Joseph Nolan here today on a charge of being a fugitive from justice.

The New York police, according to a telegram from Inspector Faurot of the New York detective bureau, want Kraft on a charge of stealing \$25,000 worth of English broadcloths from the store of Metcalf Brothers, 1913 East Seventh street, New York City.

Kraft was arrested after a brief but sharp battle, after having eluded the police of many cities for nearly a year.

According to advice of Fred Kraft, he carried away the entire stock of broadcloths of Metcalf Bros. October 28, 1913. He was indicted January 29, 1914. Just prior to his indictment, Kraft, who has an international reputation, the police say, fled from New York City, since he has been sought in every large city in the country.

"There is room, however, in the shop and in the cooking and sewing classes, but all those seeking admittance for the academic branches must report at the Oakland High School or the John C. Fremont High School.

Principal F. M. Fisher said this morning:

"There is room, however, in the shop and in the cooking and sewing classes, but all those seeking admittance for the academic branches must report at the Oakland High School or the John C. Fremont High School.

It is imperative that the new school building open its new plant this term as the students are experiencing much discomfort in the old structure. The boys and girls are attending recitations in three buildings rented by the board of education, to relieve the congestion."

CARNEGIE APPROVES OF
GREAT BRITAIN'S ACTION

NEW YORK, Aug. 6.—Andrew Carnegie, one of the world's most distinguished peace advocates, approves of England's course in the present crisis. In a cable message from Scotland to the New York Evening Post, he says:

"Germany, having declined Britain's proposed peace conference and then having asked Britain to agree to her march through Belgium, Britain was bound to

protect Belgium by land and sea."

BEATEN AND ROBBED.

SAN FRANCISCO, Aug. 6.—Two men attacked Joseph F. Rose, 66 Jackson street, as he was reading his lodgings early this morning. He was thrown down, beaten and robbed of a watch, valued at \$20, and 28 cents in cash.

They are the only systems used wide-

ly throughout the English-speaking

world. This means that no matter

what city a stenographer may move to,

she writes a system of which her em-

ployer knows and which is a re-

commendation of her ability.

WILL DREAM OF KINGS MATERIALIZE THROUGH WAR.

Suppose Germany wins in the war just started? In that event she will become one of the greatest of world powers. France can reckon on being dispossessed of her colonies and reduced to a condition similar to that of Spain. Russia's vision, so long entertained of controlling the Bosphorus and of uniting the Balkan peoples by suzerainty, will be dissipated and Great Britain's supremacy at sea will be ended, while Germany has a free hand in the commercial conquest of earth. Holland and Belgium will lose their identity as independent nations and become German provinces.

But on the other hand, suppose Germany loses, what then? The empire of which the kaiser and his people are so proud will no doubt be dismembered and divided. France will insist on the return of the provinces of Alsace and Lorraine. German Poland will become the property of Russia, her ally Austria will doubtless be shorn of much of her glory, while Great Britain will insist upon her portion of the spoil.

For a long time Austria has been scheming to secure Salonika and realizing this, it is small wonder that she has offered to furnish 100,000 armed men to fight with Servia against the aggression of the troops of Franz-Josef. Austria cannot get to the southern sea except through Servia.

Neither Russia nor England want Austria in the Aegean Sea. France may be indifferent to this situation, but she will stand by her allies in the Triple Entente. There the lines are drawn.

This war is going to be a terrible one, now that Great Britain has entered the field. If she calls in her territorial troops to take part in the fight her army will be an immense one. The other nations are prepared to mass millions of soldiers for action, and when the lines are drawn and the preliminary skirmishes over; when the grand divisions are arrayed in lines of battle, nearly twenty million men may be involved.

We look for Russia to make a far different showing than during the Russo-Japanese war. Russia can put from 6,000,000 to 7,000,000 men in the field, and she will be in better condition than when she had to transport her soldiers 5000 miles over a single track railroad poorly equipped. Germany can muster 5,500,000, Austria 2,500,000, France 2,500,000, while the Balkan States have armies of no inconsiderable size.

These latter are fighters, too. It must be remembered that during the recent struggle there were some 750,000 men engaged—300,000 Bulgarians, 300,000 Serbs and 150,000 Greeks. There was a frightful loss of life, too. Bulgaria in her war with Turkey lost 36,000 of the finest of her men.

The fleets of the warring powers must not be forgotten. England has the greatest navy in the world. Nearly 150,000 men are required to man her fleet, almost twice as many as in Germany's navy or that of the United States. France is nearly equal to Germany in naval strength, while the combined fleets of Great Britain and France greatly outnumber the combined strength of Germany and Austria. England has 563 war vessels of all sorts, France 419, Germany 295 and Austria 169. This estimate of strength leaves Russia outside, because as a naval power Russia does not amount to much, although she exceeds Austria with 220 war craft of all kinds from battleships to submarines. That England and France will do considerable sea fighting is apparent, and we may look for the channel fleet to be heard from off the kaiser's north coast at almost any time, while her swift cruisers in other waters will be preying on German merchantmen whenever they may be found.

Just now it looks as if Japan might be drawn in, and in such an event her naval strength will be used in the Orient to the great disadvantage of Germany, and there is also a possibility that a part of it may be sent eastward to take part in operations there.

Looking at the situation from all angles it is apparent that this war is going to be a hard fought and terrible one in its consequences. The armies engaged are made up of trained fighters, the weapons the most modern. The generals commanding are men of great ability, the admirals of fleets thoroughly schooled in the craft that teaches men to slay. In addition to these features new elements are to be used, because we look to see the airship play a conspicuous part and as a result of their use to read of slaughter unprecedented.

There is no longer hope of mediation; the war has actually begun, to quote the words of Patrick Henry, and every breeze from the east hereafter will bring to our ears the clash of resounding arms. This situation apparent, humanity can only hope that the struggle will be short and so decisive that in the sane moments following the conflict the rulers of nations and leaders of men will determine with Bulwer in the quotation attributed to Richelieu: "Beneath the rule of men entirely great, the pen is mightier than the sword," and in the future will submit their differences to arbitration.

Just now kings and rulers are dreaming of added prestige and power and their subjects are chanting songs of blood. The awakening to come is going to be a terrible one for those who have precipitated this useless conflict; useless because there was not a single element in the controversies that could not have been settled without an appeal to arms.

The European situation seems to have left this back-to-nature man knowles free to work out his own salvation in the north woods unnoticed.

TAX COLLECTOR HAS MAGNIFICENT RECORD.

James B. Barber, County Tax Collector for Alameda County, has held the office for twenty years, and it is said by him that he is running on the record he has made. During the time he has occupied the office he has handled millions upon millions of the people's money, yet during all that time he has never been in default to the amount of a cent, or a minute tardy in making his settlements.

For the past four or five years the collections of his office have amounted to upwards of \$3,000,000 a year, this stupendous sum being accounted for promptly and efficiently.

The administration of Tax Collector Barber has been one of efficiency. It has been business in every angle. When he assumed the duties of the place methods were crude and cumbersome and much energy was wasted in useless detail. One of his first tasks was to correct this and substitute in place a simple, direct yet thoroughly protective plan, by which labor could be saved, expenses held down to a reasonable minimum and the work of the office conducted in such a manner as to give the most perfect results possible. He did all this and as a result the records of the tax collector of this county are today the best in the state. They are succinct, self-explanatory and direct. They can be understood by the veriest novice in figures and are appreciated by the greatest experts.

Mr. Barber's service in this office has been of a character to continually add to his qualifications. As Alameda County has grown his business has increased, but he has kept pace with it and at this time when asking for re-election at the hands of the public he has so faithfully served can well draw to him such re-election on the record of the past.

In addition to Mr. Barber's service as an official he is a public-spirited man and takes an active part in civic affairs. He is in touch with every part of the county and is known from one end to the other. There is little doubt, in fact it is a certainty, that Mr. Barber will be selected to succeed himself at the primary election and if this is the result every citizen, man or woman, in Alameda County will be perfectly satisfied.

TAKE ME HOME!

BY THE OAKLAND TRIBUNE CARTOONIST

JUST JUDGE AND HONEST MAN PASSES.

California lost a great and good man when Chief Justice Beatty of the supreme court of the state died Tuesday afternoon. He devoted twenty-five years of his life to the service of the commonwealth, having been chosen in the first instance to succeed Chief Justice Morrison, and being subsequently chosen for two full terms of twelve years each. His last term would have expired next January and with its end he planned to retire and pass the remaining days of his life in peace and quiet.

Justice Beatty might have acquired a great fortune had he not accepted the arduous duties of a judge, for he was a lawyer with few peers and competent to earn large sums of money as a practitioner. But he chose to serve his adopted State of California and as a result accepted a place on the bench, where his decisions were of such a character as to command attention. He came here past chief justice, having served in that capacity in Nevada, following a term as an associate justice.

Judge Beatty was fearless in his interpretation of the law and at times political opponents have criticized him, but during all his career no one has had the temerity to challenge his integrity or the honesty of his opinions.

He goes to his last sleep full of years, carrying with him the regrets of all who knew him, and who had hoped that following his retirement he might live long to enjoy the rest to which such an active person as he was is entitled.

In the midst of all the turmoil of war is heard the voice of the Djibson Dampa Lama, Bogda of Urga and Hutuktu of Mongolia clamoring for recognition. Why, oh, why not extend it and prevent further complications?

Wonder if Mme. Caillaux intends enlisting?

How natural things must look to old man Huerta on arrival in Europe.

The Germans have captured Limberg in Belgium, where the famous cheese is made. Must have been a strong assault.

Father Ricard predicts a hot August. So far as Europe is concerned his prophecies have been already justified.

While mobilization for capture is popular why not mobilize the Oakland baseball team for an attack on the pennant?

TWENTY YEARS AGO TODAY

The annual meeting of the Alliance Republican Club was held in Justice Cliff's courtroom. Colonel L. L. Brownwell acted as chairman, and H. H. Shinn as secretary.

The nominating committee recommended the election of the board of directors as follows: L. L. Brownwell, Fred S. Stratton, W. G. Bonshaw, H. H. Shinn, C. B. Wheaton, J. B. Carleton, F. E. Brigham, George P. Morrow, E. G. Lukens, W. B. Hamilton and W. A. Kenney. The committee also recommended that Colonel W. C. Little be chosen commander. The report of the committee was adopted.

Mr. and Mrs. W. R. Barron of Alameda will soon leave on a visit to Honolulu, New Zealand and Australia.

Mrs. Remi Chabot and the Misses Chabot have returned from a summer trip to Mount St. Helena.

Some of the residents of Hayward are anxious to have the next Republican convention held in that city. Editor Oakes of the Hayward Journal is using the proposition and says that the Republicans will be treated royally if they come up that way.

On the Board of Supervisors are going the rounds today. W. C. Mason of East Oakland is coming prominent to the front among the contestants for the place. He has a legion of friends and will go before the people with a good, clean-cut record.

McGouniman J. A. C. Macdonald is the latest candidate in the field for supervisor. Charles Hardenburg of East Oakland has announced himself

DADS WERE BETTER MEN

Speaking of vocational training, a

school superintendent said the other day

"The reason why these boys are not

taught trades and these girls taught

housekeeping is the firm belief of pa-

rents that their particular son is bound

to be president and their particular

daughter can not help becoming rich and

famous."

There is a lot of hard sense in that re-

mark. The aim of nine parents in ten

seems to be to keep their sons and daugh-

ters from soiling their hands with plain-

ordinary, useful work, and boys and girls

who never get their hands soiled make

a poor job of men and women. They do

that.

The schools will turn out youngsters

capable of earning their own living when-

ever the parents commonly drop the no-

tion that it is becoming to young

Americans to work with their hands

as same as their daddies did—Chicago

American.

MUCH IN LITTLE

Minnesota's population is now 2,250,-

00.

Johnstown, Pa., has 10,574 factory and

shop workers.

Switzerland is a heavy importer of

American apples.

More than 460 Germans settled last

year in Minnesota.

The Korean postal savings bank sys-

tem has 420,000 depositors.

Arizona now forbids the opening of sa-

laries earlier than 10 a.m.

There is in existence now a chaperone which insures safety under certain cir-

cumstances, and it is not the bulldog

which sometimes sits in the tonneau.

A young man and a pretty young

man were recently riding along the

Mound road in Minneapolis. In the ton-

neau was a bulldog. As they reached

a shady spot the man released one hand

from the wheel and let his arm slip

about the waist of his companion. The

young woman threw back her head but

could not avoid osculator contact. The

automobile meanwhile skidded into a ditch

and turned over. The kisser and the

lusted were uninjured, although cover-

ed with mud. Fate took it out on the

dog. It was found beneath the car east

of its four legs pointing upward, cold to

death.

There is a moral in this. In driving

an automobile always permit your left

hand to know what your right is doing

and two different in the old days, when

back and give your concentrated atten-

tion to amateur amenities. But today

you must concentrate hard and mind on

the machinery before you. Beyond the

prideous path of gallance lies a pre-

cept.

The world is growing better. The

mechanism of our pleasure vehicles is an

automatic chaperone. But one cannot

but absolutely the future's well. Not

winning with the world's

play in our lives, it is more humane

to let us out of home—Oakland

City Times.

WHOLE TOWN ATTENDS KNOWLAND'S 'PARTY'

Candidate for Senator Delivers Vigorous Speech
in Oil Region on His Birthday

TAFT, Cal., Aug. 6.—Fighting the
dust and heat of the oil fields, Con-
ditions are too weak to move our goods to
the market.

Following the meeting, at which several hundred oil men were present, an informal reception was tendered to Congressman Knowland.

The day had its humor despite the fact that the thermometer hovered between 114 and 117 degrees from noon until sundown. Mr. Knowland stood the hot rays of the desert sun like a native of this district, and at night when the band leader asked for a suggestion as to his favorite musical composition, smilingly answered: "There'll Be a Hot Time in the Old Town Tonight"; that is the most appropriate piece I can recall."

Previous to his arrival here Congressman Knowland arrived at Maricopa in the morning and following a meeting at which he was cordially greeted, proceeded along the road to Taft, stopping at the smaller places en route. Everywhere he has appeared he has been given a welcome equal to any accorded him in the upper San Joaquin valley and despite the intense heat has carried out his schedule as arranged.

OTHER SUCCESSES.
Mr. Knowland left for Bakersfield this morning, where he will be joined by Mrs. Knowland.

His Hanford meeting was an unusually successful one. Close to 400 persons assembled in the park of the courthouse house to listen to his masterful dissection of the Democratic tariff and cheered him to the echo as he related his fight for the retention of the free tolls clause for coastwise vessels in the Panama canal act. When he had finished a lusty rancher with a voice like a lion roared out: "Three cheers for Knowland!" which were given with a will, and following the adjournment an informal reception was given at which nearly every voter present pledged support to the candidate.

YEARS OF SERVICE.
"For ten years," said Mr. Knowland, "I have been in congress, and during that time I have been constantly endeavoring to improve our merchant marine. We who live in a great coast state realize the needs for a strong merchant marine and know how great an asset it would be, especially in times like this. Today, when war has upset conditions in Europe, we stand totally unprepared, our products are piling up within our

PRISONER CHOOSES HIS OWN SENTENCE

He Helps Judge Set Term and
by His Assistance Gets
Off Lighter

LOS ANGELES, Aug. 6.—When the class in Superior Court arithmetic received before Judge Monroe today, Walter Johnson went to the head of the class.

This honor was won by proving that five months and seventeen days plus five months equals four months and twenty-nine days.

Johnson was sentenced to six months in jail thirteen days ago for swearing. Yesterday he pleaded guilty to having failed to provide for his six children before going to jail and asked that he be given a sentence on the chain gang so that his wife could be paid \$1.50 per day. He was working on the chain gang anyway and decided he would like to be paid for it. Because of the peculiar wording of the law sentences are always given in months.

HIS OWN TERMS.

"You have five months and seventeen days yet to serve for disturbing the peace by swearing," Judge Monroe said. "I don't want to keep you in any longer than that. I might sentence you to five months and have the sentences run concurrently, but that would leave seventeen days."

Johnson then suggested this solution: "Sentence me to five months on the chain gang. Then get me paroled from the last seventeen days of the swearing sentence. That would bring both sentences to an end on the same day."

"That's fair enough," Judge Monroe said, "and I will give you credit for today."

Johnson went back to the county jail smiling and saying: "I serve two sentences at the same time; will get out of jail sooner than I would serving either one alone, and my wife gets paid for it."

ADDRESS IMPROVERS.

John E. Richards, associate justice of the District Court of Appeals, will be one of the speakers at the meeting at a meeting of the Peralta Heights Improvement Club, to be held Friday evening, August 7, 1914, at 8 o'clock, at the Peralta Heights Improvement Club rooms corner of Park Boulevard and Newell avenue, Oakland. Judge Richards will address the club members and their friends on the topic "Public Opinion and Political Problems."

WILL HOLD RALLY.

The Young Peoples Societies of the First Congregational church, Twelfth and Clay streets, on Thursday evening, August 27, at 8 o'clock, R. A. M. Brown, A. M., will be the speaker of the evening. The committee having arrangements in hand are F. N. Kornhauser, P. G. Ruef, Fred Hoffman, J. R. Ferren, F. J. Wels, A. C. Jensen and J. H. Illichan.

NOTE: JURIST DIES.

ST. JOSEPH, Mo., Aug. 6.—Judge Elijah H. Norton, one of the best known jurists of Missouri in the early days, who served as a member of Congress and upon the state Supreme Court bench, died today at his home in Platte City. He was 22 years old.

ALAMEDA

FRAT. TROPHIES
CAUSE HIS
ARRESTStudent to Be Prosecuted for
Collecting Loot for Adorn-
ment of Room.

a miscellaneous loot which he had collected at Idors Park for the adornment of his room in the Pal Uptonian fraternal house on 11th Street. Joseph L. Moody, a junior at the University of California, was arrested at 1 o'clock this morning by Officer Greming as he stepped from a Telegraph Avenue car at Banning's Garage, accompanied by a student who bore a portion of the trophy, dropped his share and took to his heels. A shot fired by the officer into the air failed to stop him and he escaped without his identity becoming known.

The trophies which the boy had collected, in accordance with an established college precedence, consisted of a five-gallon milk can, an alarm clock, a wooden chair, a pair of "the world's shortest pants" on car, and a paper sign stolen from a waffle counter. Moody admitted that he had taken the articles from the park, but he refused to give the name of his companion. He was taken to the police station and released on \$50 bail. He will be arraigned before Judge Edgar on a charge of petty larceny, and the prosecution of the case will be vigorous.

Chief of Police Volmer has repeatedly declared that he would end the old custom of stealing signs for the adornment of the fraternity houses must cease. In a raid conducted several months ago of all the fraternity houses, a wagon load of loot, ranging in size from a hamper to streetcar signs, was collected. At that time Volmer warned all the fraternity men that arrested would be made and all cases prosecuted.

"I am determined to put an end to this state of affairs," he said. "I did not expect that an outbreak of this kind would occur so early before college opened. I have given instructions to the officers to watch for depredations of this kind, and if any student is found in any of these houses, I do not intend to allow the culprits to go free with a mere reprimand, but they must pay the full price for their offenses. Moody will be prosecuted, and as he admits taking the signs, he will surely go to jail."

Moody, who resides at the Pal Uptonian house, comes from San Francisco, and is a student in the college of social sciences.

WED AND START ON
MOTORCYCLE HONEYMOON

BERKELEY, Aug. 6.—Riding up to the City Hall late yesterday afternoon on motorcycle, Harry Goldwater, 23 years of age, and Mary Miller, a pretty divorcee of 22, sought the services of Judge Robert Edgar for a marriage ceremony. The young couple, in their wedding attire, were dressed for an outing in khaki and flannel and declared that they were to spend their honeymoon in a tour of the central counties. As they brought no witnesses with them, Oliver Young, Jr., the district attorney, and Miss E. M. Block, secretary to Mayor Heywood, acted in that capacity.

LOSES PLETHORIC PURSE.

BERKELEY, Aug. 6.—The theft of a purse, a diamond bracelet, a chain of diamonds, a diamond brooch, a chain of gold beads and a checkbook was reported to the police this morning by Mrs. J. V. Celeston of 1511 Bonita street. She declared that she had inadvertently left the purse in the dressing room of the Southern Pacific station. She missed it almost as soon as she had left the room, but when she stepped back it had disappeared. She suspects one of two women who were in the dressing room at the time and whose description she has furnished to the police.

WILL DELIVER ADDRESS.

BERKELEY, Aug. 6.—Rabbi Hermann Hirsch will address the First Hebrew Congregation of Berkeley tomorrow evening at 2130 Center street at 8 o'clock. Dr. Rosenauweisen has previously preached before the local congregation, and the services will be conducted in active interest in its development. Dr. Field of Sacramento will conduct the services, and Dr. Rosenauweisen will speak on the topic, "What Religion Has Done for Humanity."

LEAVES FOR SCENE OF WAR.

BERKELEY, Aug. 6.—Adolphe T. de Villiers, a well-known Berkeley musician and teacher of French, has responded to the call of France for reserves and departed last evening for his native land. He will remain in the city in care of friends while he goes to the front to take part in the great European struggle.

EGALIS TO HOLD SESSION.

ALAMEDA, Aug. 6.—Alameda Aerie of Eagles will meet in regular session this evening. The members will discuss the big picnic which is to be held Sunday, August 16, in Hayward. Great preparations are being made for the annual event, with various attractions of games, races and dancing.

HOSE THIEF SENTENCED.

BERKELEY, Aug. 6.—George H. Meyer, a gardener living at 572 Fifth street, Oakland, was sentenced this morning by Judge Greming to six months in jail for larceny. Meyer had been systematically stealing hose from various yards in the city and selling it in Oakland.

QUESTS OF OAKLAND ELKS.

ALAMEDA, Aug. 6.—Members of Alameda Lodge of Elks, accompanied by the big band of the organization, will visit the Oakland Lodge of Elks tonight, when a well-known band will entertain the team of the Oakland Lodge. This made a great showing at the recent conclave in Denver.

FIREMAN IS INJURED
AVERTING COLLISION

BERKELEY, Aug. 6.—While attempting to avoid a collision with a Grove-street electric car at Ashby avenue late yesterday afternoon, Mr. Boehmer, driver of an automobile fire truck No. 4 from the Grove-street firehouse, swerved the machine across the street and into an electric-light pole. He was severely injured to his right knee, which was dressed at the Roosevelt hospital. The truck was damaged to the extent of \$200.

The accident occurred while Boehmer with his comrades was rushing southward in response to a fire alarm for a garage fire at King and Ashby streets. As he was about to turn the corner from Grove at high speed, a car drove from the south, and to avoid crashing into the car, which was heavily loaded with passengers, Boehmer turned suddenly to the right.

Many youths are taking advantage of the new course.

WOMEN DISCUSS POLITICS.

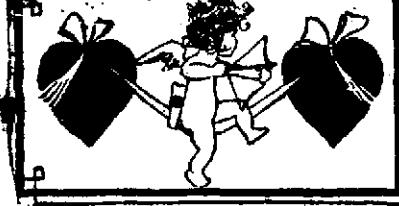

Berkeley League of Alameda is to meet tomorrow evening at the home of Mrs. H. Pitts, 3249 Franklin Avenue. The program will consist of a discussion of various topics for office aspirants for office.

IMPROVERS TO MEET.

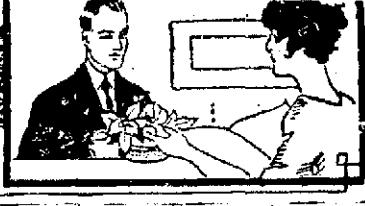

ALAMEDA, Aug. 6.—The Alameda Improvement Club will meet this evening in regular session. The members will discuss the question of communing terms of government.

MISS ELIZABETH REARDEN, WHO WILL BE ONE OF THE AUGUST BRIDES.

THE Maries are wondering what to do about their place in Burlingame. It's a wonderful house, just across from the Burlingame club, filled with most beautiful things. Mrs. Marry was keen about it for a time. Gave all her interest to furnishing it and gathering rare rums and tapestries and all the costly things that make homes beautiful if one has millions.

Then, just when the house was finished, Mr. Marry was appointed ambassador to Russia, and it was suddenly a white elephant. They hated the idea, but the Maries decided to lease it. It seemed the proper disposal of the place, but, unexpectedly, a difficulty arose.

Early in the summer, Mrs. Marry and her small daughter Helen were going to the house. "It is yours, you know, Helen," Mrs. Marry had said, and really meant it. It was planned and built for Helen. Little Miss Marry was quite pleased as though it had been a new doll house and constantly talked of her house after that.

The other day her mother said something to her father about disposing of the place. "Are you going to lease it?" asked their daughter. They told her, apologetically, that they were.

"But you can't," announced Helen. "It's mine." And there the question of the house stands. Helen doesn't want to lease it and Mrs. Marry says she doesn't see any other way than to close it.

Meanwhile agents are looking for an ambassadorial residence in St. Petersburg. Unless war prevents the Maries are going to Russia quite soon. Friends of Ray Baker are awfully interested in his appointment as secretary. Mr. Baker is the son of a prominent architect, Mr. George Baker, and his brother, Cleve Baker, who married Pansy Perkins and whose death ended what might have been a brilliant career. Ray Baker's appointment has used his Oakland friends immensely.

MRS. BULL'S WEDDING.

Mrs. Henry Miles Bull has set the date of her wedding to Dr. George Rothganger of San Francisco for September 5. It will be simple in its details, but a number of intimate friends will be present at the ceremony for which there will be attractive decorations. On their return from a two weeks honeymoon the young couple will take possession of the Ebers' residence in Marin, where they will be present at her mother's wedding. Both Mrs. Bull and Mrs. Veitch are being feted informally by their friends, who have been showering them with delighted good wishes since the double engagement.

○ ○ ○

WEITCH-MUHLNER WEDDING.

The wedding of Mrs. Elizabeth Latham and Frederick Parker Muhlner at St. Paul's Church on August 15, will be simple in its details, but a number of intimate friends will be present at the ceremony for which there will be attractive decorations. On their return from a two weeks honeymoon the young couple will take possession of the Ebers' residence in Marin, where they will be present at her mother's wedding. Both Mrs. Bull and Mrs. Veitch are being feted informally by their friends, who have been showering them with delighted good wishes since the double engagement.

○ ○ ○

MRS. YOUNGBERG ENTERTAINS.

Little Miss Beatrice Youngberg's first birthday was celebrated at an interesting children's party at which Mrs. Charles Youngberg was hostess at her home in Perry street this afternoon. The children with their nurses or mothers were a charming group of babies, obviously well with the party. They spent an admiring afternoon in the garden and later refreshments were served indoors.

Mrs. Youngberg was assisted by several older girls, who included Miss Carol Hubbard, Miss Gertrude Hubbard, Miss Frances Sherman, Miss Edna Sherman, Miss Dorothy De Fremery, Miss Ruth Hawley. Among the small guests were Buddie Havens, Kathleen Fitzgerald, Margaret Breuer, Ethel De Gomez, Margaret Rutledge, Margaret and Louise Parcells, Margaret Bates, Barbara Townsend, Ida Bell Burrell, Clay Sherman, John De Golla, David Woodward and Sam Hubbard Jr.

○ ○ ○

CHILDREN'S PARTY.

Another delightful children's party was given Tuesday afternoon by Mrs. Charles Townsend at her home in Dracena avenue. Piedmont, where a dozen small boys and girls were entertained in honor of Miss Barbara Townsend's birthday. Their mothers, who helped with the affair with the children. Among those present were Mrs. Will De Fremery with her small son Peter; Mrs. Charles R. Hubbard and her two little girls, Miss Beatrice Youngberg, Miss Seville Hewitt, Mrs. John J. Donovan and her little daughter, Mrs. Ross and her daughter, Miss Marie Townsend and master, Henry Markward.

○ ○ ○

MOTOR TO TAHOE.

Mr. and Mrs. H. C. Brougher will leave Saturday on a motor trip to Tahoe, where they will spend six weeks at "Rose Crest," their summer home on the Tavern. Mrs. Brougher's mother, Mrs. Belle Gavin, will accompany them.

○ ○ ○

RECEIVE, CONGRATULATIONS.

Mr. and Mrs. J. Archibald McDowell are being congratulated on the arrival of their son, John, who was born at their home in Oakland a few days ago. Mrs. McDowell was Miss Marie Brundage of Oakland before her marriage.

○ ○ ○

RETURN FROM SPRINGS.

Mr. and Mrs. M. J. Leyman and Miss Alice White will entertain informally this evening at her home in Bissell street, in honor of Miss Alice and Miss Marian Baker of Chico, who are visiting Mr. and Mrs. E. Graves. Among the guests will be Miss Etta Vandewitte, Miss Margaret Schmitz, Miss Bell, and Misses Fay Gilmore, Miss Corinne McMillan, Mr. and Mrs. Graves, Dean

Lake county, where they visited several of the Springs, and are at their home in Chetwood street after an absence of several weeks.

○ ○ ○

RETURN FROM YOSEMITE.

Mr. and Mrs. F. R. Chadwick returned this week from Yosemite, where they spent two months. They went into the

Exhale Sweetness

(By Lillian Russell)

Copyright, 1911, by LILLIAN RUSSELL

A SWEET breath is the privilege only of women, who are pure in mind, living in soul, hole in body and clean in habit. A writhed stomach, bad teeth and a low order of vitality are the chief causes of a disagreeable breath.

The course compounds sold by chemists and candy shops are nothing more than vulgar pretense, and a refined woman will shrink from amending the defect by these means. A small quantity of violet dissolved on the tongue after each meal is efficient in aiding digestion and cleaning the mouth and throat from the flavor of food which is likely to become offensive. With these simple precautions no girl need recoil from contact with her friends.

Not only the lips themselves and their surrounding lines of expression, but the chin and the cheeks assume beautiful forms and retain their smooth and youthful contour in direct proportion as the mouth beeps content.

Sound teeth and the avoidance of cigarettes are essential to a dainty breath. The habit of cigarette smoking for a woman is an unnecessary and an unpardonable practice, however considered. Our American women indulge much less than foreign ones, and consequently they are remarkable for having the purest and most attractive mouths of any civilized race.

Cigarettes are superfluous and therefore merit condemnation from every standpoint: they discolor the lips and dainty fingers, darken the teeth and embitter the breath.

The gums are stimulated and the teeth preserved by daily brushing with cold water and salt. There is but one thing to be said in reference to bad teeth—elect them from your company as soon as you know they are past the art of the dentist. The color of the gums and the position of the teeth in them can enhance greatly the beauty of the face. The dentist's craft and personal care are all that can be observed as means to a perfect end.

Remember: Cleanliness is sweetness in every sense.

Lillian Russell

Answers to Queries.

MRS. M. R.—Rub vaseline on the child's scalp each night. This will gradually loosen the crust of dandruff on his scalp. Each morning his hair should be brushed well to loosen the softened dandruff and remove it.

After washing his hair rub more vaseline into his scalp to keep the crust soft. In a short time this will remove it, I am sure. It is not advisable to use a strong tonic on a 2-year-old child's head, and I think if you are persistent with the vaseline treatment you can easily remove the dandruff crust.

E. G.—When washing a switch wash it as you would your own hair. Use a good shampoo and wash it carefully. Do not rub soap

LILLIAN RUSSELL

on it, but make a soaks and wash in this. Be careful you do not get it tangled. If the switch is an expensive one I would advise you to take it to a good hair dresser and have it clean it for you. Washing is not always satisfactory.

E. B.—Yes, cold cream can be used on the face after the astringent lotion has thoroughly dried on.

L. N.—The face should not constantly be cleansed with cold cream alone. Water and a good soap are absolutely necessary to cleanse the skin properly. At least once a day the face should be washed with soap and warm water. The best time is at night before retiring or after coming in from out of doors after a dusty ride. At night cleanse the face first with the cold cream, then wash it with warm water and a good soap. If you care for my formula for cold cream send me a stamped, addressed envelope and I shall gladly send it to you.

A. R.—Deep breathing forms the greater part of the secret of health and beauty. The deep breathing of fresh air has been called a form of prayer. The soul, mind and body call for rest and recreation, and the answer comes in steadier nerves, clearer brain and a more wholesome outlook. Pure air is a magic cosmetic. It clears and refreshes the skin, brightens the eyes, and banishes headaches. If you will send me a stamped, addressed envelope I shall be glad to send you instructions for deep breathing.

Woman Is Found Dead in Hotel Apartment

Sleeping Powders Cause of Death; Mrs. W. B. Hooper Victim

SAN FRANCISCO, Aug. 6.—Mrs. Elinor Hooper, widow of the late Major William B. Hooper, at one time owner of the Occidental Hotel and other property in San Francisco, was found dead in her room at the Manx Hotel yesterday afternoon. After the maid in charge of the room, at 9:30 o'clock that

room, attaches of the hotel entered by the fire escape and discovered the body on the floor of the bathroom.

Chief Deputy Coroner Joseph P. Kelly and the Manx house physician, Dr. S. W. Means, were summoned and found that Mrs. Hooper had been dead at least twelve hours. Heart failure was the cause.

Two empty five-grain powder papers were found on a table beside Mrs. Hooper's bed. Dr. Means said that if she had a weak heart, this heart depressant, taken to induce sleep, probably caused cessation of its action.

The condition of this room indicated that Mrs. Hooper had gone to bed, but had "propped" herself up on the pillows for some time reading the newspapers and drinking several glasses of lemon and seltzer. She had gone through all the columns of war news. Before her marriage to Major Hooper, she was Miss Elinor Cope, an English woman, and it is believed that she became so wrought up over the news of the English and German conflict that she felt the need of a sedative to induce sleep.

When she fell to the bathroom floor she held a toothbrush and powder in her hands, indicating that she was making final preparations for sleep when the end came.

In recent years Mrs. Hooper lived on her ranch near Los Altos, but was a frequent visitor to San Francisco, always staying at the Manx. She came to the city Monday on business and was to have returned home today.

Mrs. Hooper is survived by three stepchildren, George K. Hooper, a real estate man, who lives at 490 Geary street; Mrs. William Lyons and Mrs. Frederick Perry, wife of Captain Perry of the army, and a nephew, George W. Hooper, manager of the Mission hotel.

Mrs. Hooper was 45 years of age and owned considerable property. The remains have been taken to a Sutter street undertaking establishment.

On Sunday Mrs. Bartlett inserted a newspaper ad asking for employment as a housekeeper. The next day she received a letter, signed "H. C. Harper, room 609, Marquette Hotel."

The writer said he was a widower, 40 years old, and that he wanted a housekeeper who would appreciate a good home and in whom he could place confidence. He asked her to call him by telephone at noon or at 6 p.m.

COMES TO SEE.

Mrs. Bartlett told a reporter she did not telephone, but that "Harper" called at her home and introduced himself as the man who had answered her advertisement. He said he was from Brazil, Ind., and had one child. Mrs. Bartlett was undecided as to whether she would become his housekeeper, she said, and he suggested that she take him to board at her home until she made up her mind.

That night he took her to a picture show. Although the evening was cold, he expressed a strong desire to see the financial outlook. He told her there was going to be a big panic and many banks would fail. It was unsafe for any one to keep money in a bank. He had drawn out all of his own savings and invested them in United States Steel bonds.

QUICK PROPOSAL.

Yesterday Mrs. Bartlett says, "Harper" proposed marriage to her, and she accepted him. He then talked some about banks being unsafe, and with his proposal still ringing in her ears, Mrs. Bartlett asked him if he would not take her money and invest it with him. He would.

Yesterday Mrs. Bartlett went to the Mercantile Trust Company and drew out \$500 of the \$500 which represented her savings of 10 years, first as a shoe worker and later as a boarding housekeeper. She gave him the money at 1 p.m. and he said he would go right down to the bank and invest it with him. She waited while he borrowed enough money to arrange the ceremony.

THEY'RE BUYING
ENGLISH SUITS
ON CREDIT

--All the Fellows!

CHERRY'S, at 528 13th St. between Washington and Clay Sts., is the place that sells those nifty Suits that so many "live" men are wearing now.

English Suits for men found the note of perfect taste and clever style—and they are tremendously becoming! That's the reason for the popularity of these Suits that CHERRY'S are selling for \$22.50 just now.

That's part of the reason. The rest of it lies in the fact that everyone

buys full—*not* *on* *credit*—*on* *installments*.

The man who's never heard of CHERRY'S and their CREDIT SYSTEM is rare indeed in Oakland. It's a high-class store and men like to trade there.

The ladies' store is at 515 13th, just across from the established men's store. The San Francisco addresses are 1009 Market and 2400 Mission Sts.

Authority on Recreation Problems Discusses Need of Swimming Pool.

The Oakland Playground directors, at the first meeting of the fall season, held at the office of the recreation department yesterday afternoon, listened to a talk by E. B. de Groot, a former director of the famous South Park system of Chicago, who delivered lectures on recreation problems at the summer school.

Congratulating the department on its splendid board and its indefatigable workers, especially mentioning Miss Ethel Moore, the president, and George Dixey, the vice-president, de Groot spoke of the advantages under which they labored on *land* *water*.

"You are peculiarly fortunate," he told them, "in your Oakland climate, which affords you the advantages of all the year round. For the recreation directors should be chosen only from the finer and best equipped types." For climatic reasons, as well as for the fact that the recreation facilities are under one head, he recommended that a hook-up of Oakland and the districts around it be taken to the lead in this state in progressive playground work.

De Groot considers the playground of today the future playground of all the year round. For the recreation directors should be chosen only from the finer and best equipped types." For climatic reasons, as well as for the fact that the recreation facilities are under one head, he recommended that a hook-up of Oakland and the districts around it be taken to the lead in this state in progressive playground work.

MANY ENDORSE BARNET
EFFICIENCY IS HIS MARKPOLICE SEEKING
MISSING GIRLLeaves Home of Friends and
Is Lost in Two
Blocks.

Leaving the home of a friend, with only two blocks to walk to her home, Fannie Barber, a 15-year-old school girl, has dropped from sight as completely as if the earth had swallowed her, and the only clue that the police have is the fact that, as she passed down the street in the darkness, the tint of an automobile horn was heard. Whether the girl was kidnapped, eloped with an autoist, or how she disappeared, the police cannot imagine. The case is one of the most peculiar the detective bureau has investigated in some time.

The missing girl, who had been visiting

Thirty-eighth avenue, had left to return to her own home, 423 Thirty-eighth avenue. The disappearance occurred Tuesday night. It is believed to be the Stanford family, about 11 o'clock when she said "Goodnight" and left the house. A few moments after she left, it is declared in the Stanford, an automobile was heard to pass an a horn tooted. Yesterday the girl's parents inquired for her, believing that she might have spent the night at the Stanford home.

She was last seen in the case this morning. The girl is described as being large for her age, weighing about 100 pounds. She has dark eyes and hair and wore an untrammled hat and low-heeled slippers.

Thirty-eighth avenue, 423 Thirty-eighth avenue.

LOS ANGELES, Aug. 6.—A Castaneda will work in one of the state's stone quarries during the next two years and one-half for the sum of \$2.50.

Castaneda has received his pay in advance.

Castaneda was recently convicted of having held up J. B. Black, June 10, near the Plaza. Black said when confronted with a very large pistol he held up his hands and Castaneda took his purse containing \$2.50.

When asked what excuse he had to offer Castaneda said: "I have always had a good reputation and have always worked when I had the opportunity."

The probation officers who investigated made no recommendations.

"Under the circumstances," said Judge Willis, "I can see no excuse for the robbery. The one half years in Folsom penitentiary."

JAPANESE REVEL LEADS
TO 7 BEING ARRESTED

SAN FRANCISCO, Aug. 6.—The police of the Bush street station were certain that Japan had declared war and had mixed in the European embroilment when at 2 o'clock this morning they heard wild and unearthly sounds coming from the store at 151½ Buchanan street. On forcing an entrance they saw seven sons of the flower kingdom engaged in a revel and thirty-one bottles, some of them half filled with liquor, scattered about. They were ready to give battle to the police, but were finally overpowered and arrested. The proprietor, Y. Hirukawa, was booked for selling liquor without a license and the remaining six for disturbing the peace.

By a special accounting system Sheriff Barnet has kept close tab on expenses last year netting to the county about \$40,000 on feeding the federal and county prisoners. Although he saved the large amount to the county, the total is considered the best served in any jail in the state. Barnet is a man of system and is considered one of the best conducted in the country.
